### Why Adapter Costs in Singapore Keep Changing

Singapore's adapter market grew 18% in 2024, hitting \$190 million. But 70% of buyers overpaid due to 3 factors:

Material spikes: Copper prices rose 22% since 2023

Supplier markups: Retailers charge 2-3x factory rates

## New Singapore Policy Affecting Adapter Prices

The Infocomm Media Development Authority (IMDA) will mandate USB-C charging for all devices by Q3 2025. Expect:

- Surge in USB-C adapter demand (37% forecast)
- Temporary price hikes (+15%) before local suppliers adjust
- Best time to buy: Late Q4 2025 when new stock arrives

Looking ahead, bulk buyers should contact Johor-based suppliers like PowerGadgets Asia. Their recent clearance sale offered universal adapters at \$7.20/piece for 1,000+ units - 40% below retail. For smaller orders, FairPrice Electronics' monthly promo codes can slash another 10-15% off. Whatever your needs, act before December's GST increase to 9% cuts into your budget.
