

Best Second-Hand Four Wheel Screw Diesel Compressor in Germany 2025: Price List, Quotation & Buying Guide

Best Second-Hand Four Wheel Screw Diesel Compressor in Germany 2025: Price List, Quotation & Buying Guide

Need a second-hand four wheel screw diesel compressor in Germany without breaking the bank? You're not alone. Over 62% of construction companies now opt for refurbished heavy machinery to cut costs - but finding reliable deals can feel like searching for a needle in a haystack.

Why Prices Vary Wildly (And How to Avoid Overpaying)

A 2024 survey by Germany's Machinery Traders Association reveals second-hand diesel compressors sell for EUR8,500-EUR32,000 - a 40% price swing based on three key factors:

Engine hours (aim for under 3,000 hrs)

Service history (ask for Deutz/MAN-certified maintenance)

Attachment options (4WD adds 15-20% value)

Real Deal: Munich Contractor Saves EUR14K

Take Bauer Construction - they bought a used Atlas Copco XAS 188 through Hamburg's HeavyTech Marketplace. Paid EUR19,800 (38% below new price), got 2-year warranty. Works flawlessly on their highway projects.

2025 Price Trends: Act Before June

Germany's new eco-tax (effective July 2025) will push diesel machinery prices up 5-8%. Right now, these models offer best ROI:

Atlas Copco XAS 97EUR12,300-EUR16,700

Ingersoll Rand XP750EUR18,900-EUR23,400

Kaeser M59EUR27,500-EUR31,800

Pro tip: Chinese-made refurbished units (like Sullair Asia imports) cost 25% less but check EU compliance certificates.

Where to Get Instant Quotes (Without Sales Pitches)

MachineryDeals24 - Live auction prices

Best Second-Hand Four Wheel Screw Diesel Compressor in Germany 2025: Price List, Quotation & Buying Guide

NordWest Maschinen - Certified used stock

Frankfurt Rental Resales - Ex-lease units

Berlin-based supplier HansaTech currently offers free VG 46 oil (worth EUR580) with any compressor purchase until March 2025. Ideal for winter projects!

Buy Smart: 3 Questions to Ask Suppliers

1. "Can I test-load the compressor at 10 bar for 30 mins?"
2. "Do you handle BaFa export docs if I resell to Poland?"
3. "What's the price per working hour compared to new models?"

Remember: Leading brands like Doosan now offer 1-year performance guarantees on approved used units - peace of mind matters as much as price per piece. With fuel costs rising, that 4WD screw compressor might pay for itself faster in muddy German construction sites than you think.
