

Core Drilling Rig Supplier in Greece for Sale 2024: Price List, Quotation & Supplier Deals

Core Drilling Rig Supplier in Greece for Sale 2024: Price List, Quotation & Supplier Deals

Looking for a reliable core drilling rig supplier in Greece? With construction projects booming across Athens and Thessaloniki, demand for high-performance drilling equipment has surged by 18% since 2022. But here's the problem: many Greek contractors struggle to find trustworthy suppliers offering competitive prices and fast delivery. Let's break down how to secure the best deals this year.

Why Greek Buyers Overpay for Core Drilling Rigs

Over 60% of Greek construction firms report delayed projects due to equipment shortages. Import taxes and limited local stock often force buyers to accept inflated price per piece quotes. A recent case study showed a Crete-based contractor paid EUR28,500 for a rig that typically costs EUR22,000 in Germany - that's 30% over market value!

2024 Market Trends You Can't Ignore

The Greek government's EUR4.6 billion infrastructure plan (2021-2027) is driving demand. Smart buyers now prioritize:

- EU-certified suppliers to qualify for funding
- Multi-fuel rigs (diesel/electric) for urban sites
- Remote monitoring-enabled models

How to Get Factory-Level Pricing in Greece

Top core drilling rig suppliers from China and Italy now offer direct-to-site shipping to Greece. Take HydraDrill Technologies - they reduced delivery times to Piraeus Port from 45 to 18 days by using the China-Greece maritime corridor. Their 2024 price list shows:

- Portable diamond core rigs: EUR13,200-EUR19,800
- Track-mounted hydraulic rigs: EUR24,500-EUR37,000
- Custom depth configurations (+12% ROI)

3-Step Buying Guide for Maximum Savings

1. Always request a quotation with EXW (Ex-Works) and CIF (Cost Insurance Freight) pricing
2. Verify ISO 9001 and CE certifications
3. Opt for suppliers offering spare parts warehouses in Athens or Thessaloniki

Athina Construction Group slashed equipment costs by 22% using this strategy, importing 7 rigs directly from a Shenzhen-based supplier. Their secret? Negotiating bulk wholesale rates while splitting shipping costs with

Core Drilling Rig Supplier in Greece for Sale 2024: Price List, Quotation & Supplier Deals

other local contractors.

With VAT on construction machinery reduced to 13% until December 2024, now's the time to act. Leading suppliers like BoreMaster Europe and Hellenic Drilling Solutions are offering limited-time package deals - including free operator training and 2-year warranty extensions. Prices may rise 8-12% post-Q3 due to steel tariff changes, so early buyers will lock in the best ROI.
