

Core Drilling Rig for Sale in Brazil 2024: Price List, Supplier Quotes & ROI Guide

Core Drilling Rig for Sale in Brazil 2024: Price List, Supplier Quotes & ROI Guide

Need to know how much a core drilling rig costs in Brazil? You're not alone. Construction companies, mining operators, and contractors across Brazil face rising equipment expenses. But here's the good news: new deals under \$20,000 are shaking up the market in 2024. Let's break down current prices, hidden fees, and how to negotiate the best deal.

Core Drilling Rig Price in Brazil: What You'll Pay in 2024

The core drilling rig cost in Brazil ranges from \$15,000 to \$80,000+ depending on power, depth capacity, and brand. For example:

- Portable electric rigs (100-200mm depth): \$15,000-\$35,000
- Hydraulic diesel rigs (300-500mm depth): \$40,000-\$65,000
- Deep-core mining rigs (600mm+): \$70,000-\$120,000

Why Prices Vary So Much

In 2023, Brazil imported over 1,200 core drilling rigs from China - the world's top supplier. But hidden costs hit budgets hard. Import taxes (up to 20% for non-Mercosur suppliers), shipping (\$2,000-\$5,000/container), and maintenance contracts (+8-12% of rig cost) add up fast.

Case Study: How a Sao Paulo Contractor Saved 22%

ConstructoMax needed 3 rigs for subway expansion projects. They nearly signed a \$180,000 deal with a German brand but switched last-minute to Chinese supplier Henan Jeao Heavy Industry. Result? Identical specs at \$140,400 + free operator training. Their secret? Requesting itemized quotations and bulk discounts.

3 Smart Ways to Cut Costs

- Buy pre-owned rigs: Refurbished models cost 30-50% less (check Komatsu Brasil or Sany Latin America for certified used units)
- Compare supplier regions: Chinese rigs average 18% cheaper than Brazilian-made models
- Time your purchase: Many distributors offer Q4 discounts to meet annual sales targets

Where to Find Reliable Suppliers

Top-rated core drilling rig suppliers in Brazil include:

- Atlas Copco Brasil (Best warranty: 2 years)
- XCMG Latin America (Lowest spare part prices)

Core Drilling Rig for Sale in Brazil 2024: Price List, Supplier Quotes & ROI Guide

IndusTech Rio (Local assembly avoids import taxes)

Bonus tip: Brazil's 2024-2027 Infrastructure Plan offers tax rebates for companies buying rigs locally. Need a precise quote? Get 3+ free price lists from vetted suppliers here. Prices updated hourly - last deal saved a Belo Horizonte miner \$11,200.
