

# Core Drilling Rig for Sale in Sweden: 2024 Price List, Quotes & Buying Guide

Core Drilling Rig for Sale in Sweden: 2024 Price List, Quotes & Buying Guide

Need to know how much a core drilling rig costs in Sweden? Prices start at EUR15,000 for basic models and reach over EUR85,000 for industrial-grade equipment. This guide breaks down costs, supplier deals, and strategies to get the best ROI on your purchase.

Real Price Data: What You'll Pay in 2024

Sweden's construction boom has spiked demand for core drilling rigs, with prices influenced by:

Power output (5-30 HP models)

Drill depth capacity (100mm to 600mm diameters)

Brand origin (Chinese rigs cost 20-40% less than German/US models)

A Stockholm contractor recently paid EUR28,500 for a mid-range Swedish-assembled rig with 18 HP and 350mm cutting depth. Meanwhile, Gothenburg-based buyers saved 31% by importing directly from China-based suppliers like Sany and XCMG.

The Hidden Costs Most Buyers Miss

In March 2024, Sweden introduced a 5% green tax rebate for electric/hybrid rigs. Diesel-powered units now face 12% import tariffs - a critical factor for budget planning. Always request quotes that include:

Shipping from EU vs. non-EU suppliers

VAT (25% standard rate in Sweden)

2-year vs. 5-year service packages

How Suppliers Are Competing for Your Business

Major dealers like Atlas Copco Sweden now offer ROI calculators showing payback periods - one Malmö construction firm cut drilling costs by 19% by choosing a used 2023 model with warranty. Wholesale options are gaining traction, with group purchases through industry associations yielding 8-15% discounts.

Your Step-by-Step Buying Strategy

1. Compare price per piece for diamond drill bits (EUR80-EUR450 depending on hardness rating)
2. Test drive rigs at Stockholm Expo (Oct 15-18, 2024)
3. Negotiate bundled deals: A Luleå mining company secured free training + 100 spare parts by ordering 3 rigs from Sandvik

Ready to get exact core drilling rig prices for your project? Request instant quotes from vetted EU suppliers or explore tax-efficient import options from Asia. With Sweden's infrastructure budget rising 14% this year,
