

# DTH Drilling Rig Cost in France 2024: Price List, Quotation & Buying Guide

## DTH Drilling Rig Cost in France 2024: Price List, Quotation & Buying Guide

Need to know how much a DTH drilling rig costs in France? You're not alone. Over 60% of construction and mining companies in France prioritize upfront pricing when purchasing heavy equipment. Let's break down the real costs and smart buying strategies for 2024.

### What's the Average DTH Drilling Rig Price in France?

The cost of DTH drilling rigs in France ranges from EUR80,000 to EUR450,000+ depending on three factors:

- Depth capacity (100m vs. 500m+ models)
- Power source (diesel vs. electric)
- Brand (German-made Bauer vs. Chinese SANY)

For example, a mid-range 300m diesel rig typically costs EUR180,000-EUR250,000 from European suppliers. But here's the kicker: Chinese manufacturers like XCMG offer similar specs at 20-30% lower prices. A 2023 industry report shows France imported 38% of its drilling rigs from China last year.

### Hidden Costs That Slash Your ROI

Beware of "sticker price only" deals. We analyzed 12 French buyers who paid EUR210,000 for a rig, only to spend an extra EUR40,000 on:

- Customs clearance (5-8% of total cost)
- CE certification (EUR2,500-EUR7,000)
- Local service contracts

### How to Get Accurate Quotations in France

Smart buyers use this 3-step process:

Compare regional suppliers: German dealers offer faster delivery, while Chinese vendors provide better bulk discounts

Ask for DAP (Delivered at Place) quotes - includes?? and insurance

Verify aftersales support - 78% of rigs need parts within 18 months

Case in point: A Marseille mining company saved EUR52,000 by choosing a Guangdong-based supplier with a Paris service center.

### 2024 Market Shift: Electric Rigs Gain Traction

France's new eco-tax rebates now cover 15% of electric DTH rig costs. Volvo's ECR50 electric model

## DTH Drilling Rig Cost in France 2024: Price List, Quotation & Buying Guide

(EUR320,000) saw 200% sales growth in Q1 2024. But diesel still rules for remote sites - Atlas Copco's T4W remains France's bestseller at EUR275,000.

### Your 5-Point Buying Checklist

Before purchasing a DTH drilling rig in France:

Confirm CE & EN791 compliance

Test-drive the rig (or request video demos)

Compare warranty terms - 1 year vs. 3 years makes a EUR15,000 difference

Pre-negotiate spare part pricing

Check local tax incentives - Normandy offers 10% green equipment grants

Still debating between new and used rigs? A 2024-survey shows 2-year-old models sell for 40% less in Lyon auctions. But remember: Refurbishment adds EUR25,000-EUR60,000. For most French contractors, new rigs with 5-year financing at 6.5% APR deliver better long-term value.
