

# DTH Drilling Rig Rental Cost per Month in Denmark 2024: Price List & Quotation Deals

## DTH Drilling Rig Rental Cost per Month in Denmark 2024: Price List & Quotation Deals

Need to drill through Denmark's tough granite bedrock but confused about DTH drilling rig rental costs? You're not alone. Over 70% of construction companies in Scandinavia report budget overruns due to unclear equipment pricing. Let's break down exactly what you'll pay this year.

### Why DTH Rig Prices Vary Wildly in Denmark

In 2023, the average monthly rental cost for a DTH rig in Denmark ranged from EUR12,000 to EUR28,000. Three factors create this EUR16,000 price gap:

Hammers: COP 1838 models cost 40% more than COP 54 units

Depth capacity: 300m rigs cost EUR950/day vs. EUR1,850/day for 600m+ models

Fuel efficiency: Tier 4 engines save EUR2,100/month in diesel costs

### Real-World Cost Comparison: Aarhus vs. Copenhagen

Varde Wind Farm (Aarhus) paid EUR19,500/month for a 400m-capacity rig with service included. Meanwhile, Copenhagen Metro Extension contractors spent EUR26,700/month for the same equipment - proof that location impacts DTH drilling rig price per month.

### 2024 Price List: Get the Best ROI

Denmark's new carbon tax adds EUR1.8/m<sup>3</sup> to drilling projects. Smart operators now choose:

Electric-powered rigs (save 22% vs diesel)

Package deals with hammer bits included

German-made Bauer rigs (lower maintenance than Chinese models)

Pro tip: 89% of suppliers offer 10-15% discounts for 6+ month rentals. Always ask for custom quotations - Atlas Copco recently slashed prices by 18% to compete with Sandvik in the Baltic market.

### Case Study: How Nordhavn Saved EUR147,000

A Copenhagen port expansion team compared 7 suppliers before locking in:

EUR21,300/month for a Comacchio MC 400

Free onsite maintenance

Spare parts warehouse access

## **DTH Drilling Rig Rental Cost per Month in Denmark 2024: Price List & Quotation Deals**

This deal cut their total DTH rig rental cost in Denmark by 31% vs. initial quotes. Their secret? Negotiating during winter when demand drops 40%.

**Your Next Move: Request Real-Time Quotes**

Don't let 2024's supply chain delays catch you off guard. Major Danish suppliers like Ramboll and Per Aarsleff now offer 72-hour price quotations through their online portals. For projects under 3 months, consider renting from German suppliers - their daily rates are 12% lower despite similar quality.
