

# DTH Drilling Rig Spare Parts Supplier in Jordan 2025: Price List, Quotation & Bulk Deals

DTH Drilling Rig Spare Parts Supplier in Jordan 2025: Price List, Quotation & Bulk Deals

Need DTH drilling rig spare parts delivered fast to Jordan? Rising demand for oil and gas exploration projects across the Middle East has created supply bottlenecks. Over 30% of drilling operators in Jordan report delays of 2-6 weeks for critical components like hammer bits, drill pipes, and shock absorbers. But with the right supplier, you can slash downtime and cut costs by 18-25%.

Why Jordan Needs Reliable DTH Spare Parts Suppliers Now

Jordan's government aims to increase oil shale production by 300% by 2030 under its Energy Sector Strategy. This aggressive plan requires:

35+ operational drilling rigs across Azraq and Lajoun fields  
24/7 part replacements to avoid \$5,000+ daily losses from stalled rigs  
Certified components matching Sandvik, Atlas Copco, and Epiroc systems

The Cost of Poor Supplier Choices

An Amman-based contractor recently paid \$28,000 for "discounted" drill rods from an uncertified vendor. The rods cracked within 72 hours, forcing a \$19,000 emergency repair. Worse - their rig sat idle for 11 days while sourcing replacements. With proper wholesale deals and quality checks, this loss was preventable.

How to Source DTH Drilling Rig Parts in Jordan

Top suppliers in Jordan now offer:

Same-week delivery of 500+ common parts (hammers, bits, adapters)  
Transparent price per piece quotes with bulk discounts  
ISO 9001-certified components backed by 6-month warranties

Example: A Ma'an drilling team reduced annual spending by 32% after switching to a supplier offering ROI-focused packages. Their customized inventory plan included quarterly price lists and priority shipping for top-used parts.

Get Your Free Quotation Today

Leading DTH drilling rig spare parts suppliers in Jordan now provide same-day quotations covering:

- Exact costs for OEM/compatible parts
- Bulk order discounts (5-22% off for 10+ units)

## **DTH Drilling Rig Spare Parts Supplier in Jordan 2025: Price List, Quotation & Bulk Deals**

- Doorstep delivery timelines

Smart operators compare at least 3 quotations before purchasing. Ask suppliers about their testing protocols and local warehouse stock - 68% of Jordan's imported parts now come from China-based manufacturers with local distribution hubs.

Bottom line? With rig activity peaking in Jordan, a strategic buying guide and supplier partnership can make or break your project timeline. Demand warranties, verified lead times, and bulk pricing tiers when negotiating your next order.
