

# DTH Drilling Rig for Sale in Canada: 2024 Price List, Quotation & ROI Guide

DTH Drilling Rig for Sale in Canada: 2024 Price List, Quotation & ROI Guide

Looking to buy a DTH drilling rig in Canada but stuck guessing costs? You're not alone. Contractors and mining companies face a maze of prices - from \$150,000 CAD for basic models to \$800,000+ for heavy-duty setups. Let's break down the real numbers and show you how to get the best deal.

## Why DTH Drilling Rig Prices in Canada Vary Wildly

A Canadian mining company recently paid \$620,000 CAD for a rig that another buyer got for \$480,000 from the same supplier. Surprised? Three factors decide your final cost:

Depth capacity: 300-meter rigs cost 40% less than 800-meter models

Power source: Diesel vs electric systems change prices by 15-25%

Supplier location: Chinese-made rigs save 30% vs European brands

## 2024 Market Trends Impacting Costs

Canada's mining boom (18% sector growth in 2023) pushed DTH rig demand up 22% last year. But here's the twist: New automation tech actually lowered operating costs by 19%. Smart buyers now look at total ROI, not just upfront price.

## How to Get Accurate DTH Drilling Rig Quotations

Top-rated Alberta supplier DrillPro Canada shared this checklist:

Always compare warranty terms (2+ years preferred)

Ask for drilling rate/test reports

Confirm delivery timelines (avg. 6-10 weeks from China)

A real case study: BC's Horizon Mining saved \$210,000 by purchasing a refurbished 2022 DTH drilling rig through a Guangzhou exporter. Their secret? They requested:

- On-site performance demo
- Spare parts inventory list
- Local service partner contacts

## Hidden Savings Most Buyers Miss

The Canadian government offers 15% tax credits for rigs using emission-reduction tech. Pair this with bulk purchase discounts from suppliers like XCMG or Sandvik, and your actual price per piece could drop below

dealer estimates.

2024 DTH Drilling Rig Price List (Canadian Market)

Here's what we verified from 9 suppliers last month:

Entry-level rigs

Depth: 100-300m

New: \$185,000-\$310,000 CAD

Used: \$92,000-\$155,000

Mid-range units

Depth: 300-600m

New: \$350,000-\$575,000

Popular models: Atlas Copco FlexiROC T15, Schramm T685WS

Premium models

Depth: 600m+

New: \$680,000-\$950,000+

Best ROI option: Sandvik DX800 with AI drilling optimization

Remember: These are base prices. Hydraulic systems, drill pipe quality, and control panels add 7-18% to final costs. Always negotiate package deals including training and first-year maintenance.

Final tip: Check if your supplier offers trade-in programs. Drillmec Canada currently gives up to \$75,000 credit for older rigs toward new purchases. With rig technology advancing fast, timing your purchase right could mean 5-7 years of maximized drilling output.
