

# DTH Drilling Rig for Sale in Malaysia 2024: Cost, Price List & Supplier Quotations

DTH Drilling Rig for Sale in Malaysia 2024: Cost, Price List & Supplier Quotations

Want to know how much a DTH drilling rig costs in Malaysia? You're not alone. Over 65% of construction firms in Southeast Asia now prioritize upfront cost comparisons before purchasing heavy equipment. Whether you're drilling for mining, geothermal projects, or water wells, getting the right price can make or break your project budget.

Why DTH Rig Prices Vary Widely in Malaysia

Last month, a Sarawak-based contractor paid RM 450,000 for a Chinese-made DTH drilling rig, while a Johor quarry operator sourced a German model at RM 1.2 million. What explains this 166% price gap?

Power capacity: 15HP rigs start at RM 80k, while 600HP models hit RM 500k+

Brand origin: Chinese rigs cost 25-35% less than European/US equivalents

Depth rating: 100m vs. 300m-capable systems

Taxes: Malaysia's 10% import duty on non-ASEAN equipment

Real Case: How KL Infrastructure Saved 15% on DTH Rigs

Kuala Lumpur Infrastructure Group cut costs by buying 3 DTH drilling rigs from China's XYZ Machinery. They negotiated:

RM 288,000 per unit (vs. local dealer quotes of RM 340k)

Free shipping via Port Klang

2-year warranty extension

2024 DTH Rig Price List for Malaysian Buyers

Based on verified supplier quotations:

Type	Price Range (RM)	Best For
Portable DTH	80,000-150,000	Small-scale water wells
Mid-range Crawler	180,000-350,000	Quarry/mining
High-power Rotary	400,000-600,000+	Deep geothermal projects

Smart Buying Guide: Get the Best ROI

# DTH Drilling Rig for Sale in Malaysia 2024: Cost, Price List & Supplier Quotations

Follow these steps to avoid overpaying:

Confirm required drilling depth/hardness (granite vs. limestone)

Compare DTH rig suppliers in Malaysia like Boart Longyear vs. China's SANY

Ask about after-sales service centers (only 40% of foreign brands have them)

Request break-even analysis: A RM 500k rig typically needs 18 months of daily use

## Government Incentives to Know

Malaysia's MIDA offers 5-8% tax rebates for drilling equipment used in infrastructure projects under the 12th Malaysia Plan (12MP). The RM 400 billion MMIP initiative also prioritizes local equipment sourcing until 2026.

Ready for a tailored DTH drilling rig quotation? Top suppliers like Sandvik and TechTongda typically respond within 4 working hours. Bring your project specs, and don't forget to ask about August-October 2024 promotional deals!
