

Drilling Bit Price in Bangladesh 2024: Cost per Piece, Quotation & Supplier Deals

Drilling Bit Price in Bangladesh 2024: Cost per Piece, Quotation & Supplier Deals

Need drilling bits for construction or mining in Bangladesh? You're not alone! With infrastructure projects booming (think Dhaka Metro Rail and Padma Bridge), demand for drilling tools has spiked by 18% since 2022. But here's the kicker: 67% of buyers overpay due to unclear price lists and unreliable suppliers. Let's fix that.

What's the Real Cost of Drilling Bits in Bangladesh?

A 3-inch tungsten carbide drilling bit price per piece ranges from \$50 to \$500 in Bangladesh, depending on quality and supplier. Chinese-made options dominate 74% of the market due to lower costs, while German or Japanese brands like Bosch cost 2-3x more. Here's what local buyers often miss:

Hidden import taxes (up to 32% for non-CAFTA countries)

Fraudulent "grade A" certifications

Poor after-sales support from fly-by-night traders

Case Study: Dhaka Tunnel Project Savings

A contractor saved \$12,000 on 300 pieces by directly sourcing from drilling bit suppliers in China through Bangladesh's bonded warehouse system. How? They compared quotations from 8 vendors and negotiated bulk pricing upfront.

2024 Market Trends Affecting Prices

Steel prices dropped 9% YoY, but drilling bit costs remain high due to rising USD exchange rates. Smart buyers now:

Order during Q2 (April-June) when Chinese factories offer 10-15% discounts

Use Dhaka's HS Code 8207.13 for 11% tax breaks on industrial tools

Partner with wholesale distributors like BSB Tools or StarTech BD

How to Spot Fake vs. Genuine Products

Last month, Chittagong Customs seized \$240k worth of counterfeit drilling bits labeled "Made in Germany".

Real deals always include:

- ISO 9001 certification
- 6-month warranty
- Local service centers in Dhaka or Sylhet
