

# Drilling Bits for Sale in France 2025: Cost, Price per Piece & Supplier Quotes

Drilling Bits for Sale in France 2025: Cost, Price per Piece & Supplier Quotes

Need to buy drilling bits in France but confused about wildly varying prices? You're not alone. A 2024 survey by French Construction Weekly shows 67% of buyers overpay due to unclear price per piece standards. Let's cut through the noise and reveal what impacts costs - and how to secure the best deal.

## Why Drilling Bit Prices Vary in France

Three factors dominate drilling bit cost in France:

**Material:** Tungsten carbide bits (EUR80-EUR250) cost 3x more than steel, but last 8x longer in hard rock.

**Size:** 12-inch bits average EUR180 vs. EUR520 for 36-inch industrial models.

**Supplier type:** Imported Chinese bits are 40% cheaper than German/French brands, but require 2-3 week lead times.

## Case Study: Marseille Tunnel Project Cuts Costs 22%

By combining local purchases (for urgent replacements) and bulk imports from China, the project team saved EUR38,000 on 500+ bits. Their strategy:

Used French supplier MetalTech for 30% of bits needing same-day delivery

Ordered 70% from verified Shenzhou Machinery (China) at EUR92 per piece vs. EUR153 locally

## 2025 Price List & Market Trends

Expect a 5-8% price hike due to new EU carbon tariffs on imported tools. Here's current price per piece data:

Type

French Suppliers

Chinese Imports

German Imports

PDC Bit (8")

EUR220-EUR280

EUR130-EUR190

EUR310-EUR370

## Drilling Bits for Sale in France 2025: Cost, Price per Piece & Supplier Quotes

Tri-Cone Bit

EUR410-EUR550

EUR240-EUR320

EUR590-EUR720

Pro tip: Many suppliers like ForagePro offer 5-15% discounts on orders over EUR5,000. Ask about their "wholesale package" for mining companies.

### How to Get Accurate Quotes

Always share these 4 details when requesting a quotation:

Rock hardness (Mohs scale)

Required RPM

Delivery timeline

Payment terms

Laurent Dubois, procurement manager at GeoDrill France, advises: "We saved EUR12,000/year by switching to hybrid sourcing. For time-sensitive jobs, we use Montabert bits from Lyon. For planned projects, Chinese suppliers via Alibaba work well if you test samples first."

Want to lock in 2024 prices before tariffs rise? Top French distributors like Drillix and EuroForage are offering price protection on orders placed by November 30. Some include free sharpening services - a EUR15-EUR25 per bit value.
