Drilling Hammer Rental in Jordan: Monthly Cost, Price List & Supplier Deals 2025

Need a drilling hammer for short-term projects in Jordan? Rental services now offer flexible contracts starting at 230 JOD/month across Amman, Aqaba, and Irbid. With construction growing at 6.7% annually, contractors increasingly prefer renting over buying heavy equipment. Let's break down costs and smart rental strategies.

Drilling Hammer Rental Costs in Jordan: 2025 Pricing Trends

A typical Bauer BG 28 drilling hammer rents for 300-500 JOD/month, based on:

Duration: 3-month contracts cost 20% less than monthly terms

Depth capacity: 50m+ models add 30% to base prices

Delivery: On-site transport costs 80-150 JOD within Greater Amman

China-made alternatives like SANY SYR220 cut costs by 40%, priced at 190-280 JOD/month. However, German-engineered models maintain 87% resale value versus 62% for budget options.

Case Study: Dead Sea Pipeline Project Savings

AJ Contractor saved 17,500 JOD in 2023 by renting 3 Bauer hammers for 8 months instead of purchasing. The supplier package included:

Free maintenance every 150 operating hours

Same-day spare parts delivery

Extended warranty at 5% of rental fee

How to Get the Best Rental Quotation in Jordan

Top suppliers like HeavyEquip Jordan and Orion Rentals now offer online quotes. For 30% faster deals:

Specify drilling depth and soil type (limestone vs. sandstone)

Compare price per piece vs. bulk rental discounts

Ask about fuel/maintenance cost inclusions

New government VAT exemptions on renewable energy projects make drilling hammer rentals tax-deductible until 2026. This lowers effective ROI per rental month by 12-18% for solar farm installations.

Local vs. International Suppliers: Cost Breakdown

While Jordanian companies charge 250-400 JOD/month, Chinese suppliers like Zoomlion offer 11% cheaper

## Drilling Hammer Rental in Jordan: Monthly Cost, Price List & Supplier Deals 2025

rates through their Aqaba Free Zone hub. Delivery timelines average:

Supplier Type  
Delivery Time  
Cost Impact

Local  
1-3 days  
+15% price

Imported  
7-14 days  
-11% price

Always verify if suppliers meet Jordan Standards and Metrology Organization (JSMO) certifications. Non-compliant equipment risks 500-2,000 JOD fines under 2024 construction regulations.

For urgent quarry drilling near Madaba last March, Al Nasr Tunneling leased two Sandvik DX800 hammers at 620 JOD/month through a supplier partnership program. The 6-month contract included free operator training - a 1,100 JOD value added at no extra rental cost.
