Engineering Drilling Rig Rental Cost Per Month in Thailand 2025: Price List, Quotation & Supplier Deals

Need a reliable engineering drilling rig for your Thailand construction project? Renting equipment is cheaper upfront - but how much does it cost per month? Let's break down prices, show real quotes, and reveal how to save 15-30% on rentals.

## Thailand's Construction Boom Is Spiking Rig Rental Demand

Thailand's government plans to invest \$62 billion in infrastructure by 2030. Projects like high-speed railways and smart cities need engineering drilling rigs for soil testing, pile driving, and geotechnical work. But buying rigs costs \$200,000-\$800,000 - renting at ฿150,000-฿400,000/month (฿\$4,100-\$11,000) makes sense for short-term jobs.

## Case Study: Bangkok Tunnel Project Cuts Costs by 22%

A Thai construction firm saved ฿8.7 million (\$238,000) by renting 3 rigs for 6 months instead of buying. Their monthly rental cost? ฿325,000 per rig (including operator fees). "We broke even in 4 months and used savings to hire local workers," says project manager Somchai V.

## 2025 Engineering Drilling Rig Rental Price List (Thailand)

Crawler-type rigs: ฿180,000-฿250,000/month (ideal for soft soils)

Hydraulic rotary rigs: ฿320,000-฿400,000/month (hard rock drilling)

Used rigs: 15-30% cheaper - verify maintenance records first
