

Four Wheel Screw Diesel Compressor Cost in Saudi Arabia 2025: Price List, Quotation & Buying Guide

Four Wheel Screw Diesel Compressor Cost in Saudi Arabia 2025: Price List, Quotation & Buying Guide

If you're searching "how much does four wheel screw diesel compressor cost in Saudi Arabia", you're likely comparing options to buy reliable equipment for construction, oil/gas projects, or industrial use. With Saudi Arabia's \$1.3 trillion construction boom under Vision 2030, demand for mobile air compressors has surged 22% since 2022. Let's break down prices, ROI factors, and trusted suppliers.

What Drives Four Wheel Screw Diesel Compressor Prices in Saudi Arabia?

A German-made 375 CFM mobile unit costs 35% more than Chinese models, but lasts 40% longer in desert conditions. Local suppliers like Saudi Diesel Equipment Company report average 2025 prices between:

Small units (100-200 CFM): 15,000-35,000 SAR

Mid-sized (300-500 CFM): 40,000-75,000 SAR

Heavy-duty (600+ CFM): 80,000-180,000 SAR

Case Study: Riyadh Construction Firm Saves 20%

Al-Nassar Group cut costs by importing Chinese diesel screw compressors from Shanghai Heavy Machinery. Their 400 CFM unit (price: 48,000 SAR) performed equally well in road projects compared to a 72,000 SAR European alternative.

3 Key Factors Affecting Your Quotation

1. Brand reputation: Atlas Copco and Ingersoll Rand dominate Saudi oilfields but cost 25-50% more than Turkish/GCC brands.
2. Mobility needs: Four-wheel models cost 18% more than stationary units but reduce transport expenses in remote sites.
3. After-sales support: Local suppliers like Ali Al-Qahtani Sons charge 12-15% more but provide same-day spare parts across Riyadh/Dammam.

How to Get the Best Supplier Deals

Major compressor manufacturers are expanding in Saudi Arabia after the government waived import taxes on machinery in 2024. Look for:

ROI calculators from suppliers (average payback period: 14 months)

Lease-to-own options at 6.5% APR

Extended 3-year warranty packages

Dhahran Industrial Services recently secured a 1.2 million SAR contract using three Zhongde four wheel

diesel compressors from China. Their energy-efficient models reduced fuel costs by 30% compared to 2019 units. When requesting price quotes, always confirm compatibility with Saudi's 60°C summer operating standards. Many European models require costly modifications, while Chinese/Korean units come pre-adapted.

Ready to compare four wheel screw compressor prices? Contact multiple suppliers through the Saudi Contractors Authority portal - approved vendors offer 5-7% discounts on bulk orders. Keep an eye on upcoming trade shows like SMART CONEX in Jeddah (November 2025) for live equipment demos and flash sales.
