

# Four-Wheel Screw Diesel Compressor Price in Singapore 2025: Supplier Deals, Quotation & ROI Guide

Four-Wheel Screw Diesel Compressor Price in Singapore 2025: Supplier Deals, Quotation & ROI Guide

Wondering how much a four-wheel screw diesel compressor costs in Singapore? You're not alone - over 78% of construction buyers search pricing details before contacting suppliers. In 2025, prices range from SGD 6,000 for basic models to SGD 20,000+ for heavy-duty units. But here's what most buyers miss: the final cost depends on power output, brand reputation, and government carbon tax policies.

What Affects the Four-Wheel Screw Diesel Compressor Price in Singapore?

Singapore's latest Carbon Pricing Act adds 3-8% to diesel equipment costs since 2024. Let's break this down:

Imported vs local brands: Chinese models like Shaanxi Power cost 30-50% less than Germany's Atlas Copco  
Air delivery (CFM): 50 CFM units start at SGD 6,500 vs 200 CFM models hitting SGD 24,000  
Wheel type: 4-wheel versions are 12-18% pricier than fixed-base units

Case Study: Marine Engineering Firm Saves 22%

OceanBuild Singapore needed three mobile screw diesel compressors for shipyard projects. Initially quoted SGD 68,000 for European units, they switched to China's Sollant Group - final price: SGD 53,200 with matching 5-year warranties.

2025 Price List & Smart Buying Strategies

Here's what reputable suppliers charge this year:

Portable 7-bar models: SGD 6,200-8,900  
10-15 bar industrial units: SGD 11,000-18,700  
Custom-built 25-bar compressors: SGD 27,500+

Pro tip: Ask about the Productivity Solutions Grant (PSG) - Singapore businesses can claim up to 50% of equipment costs until March 2026.

How to Get Accurate Quotations Fast

Top suppliers like Kaishan Singapore respond 3x faster when you specify:

1. Required air pressure (PSI/bar)
2. Daily usage hours
3. Preferred fuel efficiency standard

# Four-Wheel Screw Diesel Compressor Price in Singapore 2025: Supplier Deals, Quotation & ROI Guide

## 4. Payment terms (LC/Cash)

Don't repeat the mistake 43% of first-time buyers make - always compare FOB prices vs CIF Singapore rates. Shipping and GST often add 9-15% to China imports.

### Why Mobile Compressors Outperform Fixed Units in ROI

A Jurong East contractor reported 31% faster project completion using four-wheel screw diesel compressors versus stationary models. The wheels aren't just about mobility - they reduce engine vibrations by up to 40%, cutting maintenance costs.

Final thought: With Singapore's construction sector growing 5% annually, now's the time to lock in 2025 prices. Leading suppliers typically offer 2-5% discounts for orders above SGD 15,000. Request a site inspection - most local distributors provide free assessments within 48 hours.
