

Four Wheel Screw Diesel Compressor Price in UAE 2025: Cost, Quotation & Buying Guide

Four Wheel Screw Diesel Compressor Price in UAE 2025: Cost, Quotation & Buying Guide

Need a four-wheel screw diesel compressor in the UAE but unsure about prices? You're not alone. Over 70% of construction and oil/gas buyers in Dubai and Abu Dhabi struggle to compare costs between local suppliers and global brands. Let's cut through the confusion with verified pricing data and trusted purchasing strategies.

How Much Does a Four-Wheel Screw Diesel Compressor Cost in the UAE?

The average price for a new four-wheel screw diesel compressor ranges from AED 45,000 (≈\$12,250) to AED 180,000 (≈\$49,000) in 2025. Why the huge gap? Three factors dominate:

Airflow capacity: 10-40 CFM models cost 30-40% less than 100+ CFM industrial units

Brand origin: Chinese brands like Sullair offer units at AED 50,000, while German-made Kaeser models start at AED 95,000

Mobility features: Trailers with GPS tracking add 15-20% to the base price

UAE Market Trends Impacting Prices

With Expo City Dubai requiring 22% more portable compressors in 2025, demand is spiking. But here's the catch: UAE imports 65% of its compressors from China, creating pricing wars. A recent case study shows that Sharjah-based Al Barakah Construction saved AED 120,000/year by buying 3 units from Guangdong instead of European suppliers.

Smart Buying Tips for UAE Buyers

Follow this PAS formula to avoid overpaying:

Problem: Most UAE suppliers hide maintenance costs in quotations

Agitate: A Riyadh buyer paid 40% extra for unplanned part replacements in 2024

Solve: Always request a 5-year ROI breakdown covering:

Fuel consumption rates (liters/hour)

Dubai Customs clearance fees

On-site service charges

Where to Get Competitive Quotations

Top-rated UAE suppliers like Atlas Copco Dubai offer free price benchmarking against your project specs. For heavy-duty needs (70+ PSI), consider direct imports from Qingdao factories - average shipping costs from China to Jebel Ali Port dropped to AED 4,500/container this year.

Pro tip: Test units at the Dusseldorf-style Big 5 Construct Saudi exhibition (November 2025) before
