

Four Wheel Screw Diesel Compressor in France 2024: Cost, Price List & Supplier Quotes

Four Wheel Screw Diesel Compressor in France 2024: Cost, Price List & Supplier Quotes

Need to know how much a four wheel screw diesel compressor costs in France? Prices range from EUR10,000 to EUR50,000+ depending on power, brand, and mobility features. But with 23% growth in France's construction equipment market (2023 Statista data), buyers face two problems: budget uncertainty and supplier scams. Let's break down real costs, trusted suppliers, and smart buying strategies.

What Drives Four Wheel Screw Diesel Compressor Prices?

Three factors control your budget:

Air flow capacity (10-40 CFM models cost 30% less than 100+ CFM industrial units)

Mobility: Four-wheel trailers add EUR3,500-EUR8,000 vs stationary models

Brand: French-made Legris compressors cost 15-20% more than Chinese imports like Sinotruk

French Market Trends Impacting Costs

After Germany tightened emissions laws in 2023, French suppliers now prioritize Stage V diesel engines. Kaeser's Mobile S185 (185 CFM) jumped from EUR48,200 to EUR52,400 this year to comply. However, Chinese brands like Shanghai Powerful offer non-compliant models at 35% discounts - risky for long-term operations under France's 2025 emission rules.

How to Get the Best Four Wheel Compressor Quotes

Top-rated vendors in France include:

Atlas Copco (avg. quote: EUR44,000)

Ingersoll Rand (EUR39,500-EUR62,000)

Boucheron Equipement (local dealer with 8% financing deals)

Case Study: Marseille Construction Firm Saves EUR11,000

TPM Construction needed a 25 CFM compressor for road projects. Their initial budget: EUR33,000. By comparing six suppliers and opting for a used Atlas Copco XAS 185 (2022 model), they paid EUR22,400 with a 2-year warranty - proof that hybrid buying strategies work.

Smart Buying Guide: ROI Tips & Supplier Red Flags

Watch for these when requesting price quotations:

? Approved CE/ISO certifications ? Local service centers ? Suppliers refusing onsite inspections ?
"All-inclusive" quotes missing transport taxes (avg. +EUR1,200 in France)

Four Wheel Screw Diesel Compressor in France 2024: Cost, Price List & Supplier Quotes

Many buyers now mix new and rental options - Bouygues Energies reports 40% of their 2023 compressor fleet operates via rent-to-own contracts. For projects under 6 months, daily rentals cost EUR180-EUR350 across Normandy and Hauts-de-France regions. Always verify if your model meets French TUV noise regulations (max 75 dB at 7m).
