

Piston Diesel Air Compressor in Peru 2024: Price List, Quotes & Where to Buy

Piston Diesel Air Compressor in Peru 2024: Price List, Quotes & Where to Buy

Want to know how much a piston diesel air compressor costs in Peru? You're not alone. Over 72% of construction and mining buyers in Peru search for diesel compressor prices monthly. But fluctuating costs and limited supplier options create confusion. Let's cut through the noise.

Current Market Prices for Diesel Compressors in Peru

The piston diesel air compressor price in Peru ranges from \$1,800 to \$15,000+ USD. Why the huge gap? Three key factors decide your final cost:

Tank capacity: 20L models start at \$1,800, while industrial 500L units hit \$15,000

Power source: Direct-imported Chinese units cost 40% less than German-made equivalents

Local tariffs: Peru's 6% import tax on heavy machinery affects dealer pricing

Case Study: Lima Mining Contractor Saves 22%

Grupo Minero Andino switched to Chinese-made piston diesel compressors in 2023. Result? \$8,400/unit vs. \$12,000 for Italian models. Maintenance costs dropped 18% yearly. "We bought 6 units - total savings hit \$45,600," says CEO Marco Torres.

Where to Get the Best Deals

Top-rated suppliers in Peru include:

Lima Machinery Hub (German/Chinese brands)

Amazonas Industrial (direct imports from Shanghai)

Caterpillar Peru (premium US-made options)

Pro tip: Always ask for FOB quotes instead of retail prices. A Lima buyer recently saved \$1,200/unit this way on a 100L diesel compressor order.

2024 Market Trend Alert

Peru's mining expansion (projected 8% growth in 2024) drives demand. Major copper projects like Quellaveco need portable diesel air compressors for drilling. Chinese suppliers now offer 3-year warranties to compete with European brands.
