

# Screw Diesel Air Compressor in Saudi Arabia 2025: Updated Price List, Quotes & Supplier Offers

Screw Diesel Air Compressor in Saudi Arabia 2025: Updated Price List, Quotes & Supplier Offers

Need a screw diesel air compressor for construction, mining, or industrial projects in Saudi Arabia? You're not alone. Over 60% of equipment buyers in the Kingdom struggle to find clear pricing and reliable suppliers. This guide reveals 2025 cost benchmarks, trusted suppliers, and negotiation strategies to help you avoid overpaying.

## Current Market Prices in Saudi Arabia (2025 Data)

The average screw diesel air compressor price in Saudi Arabia ranges from SAR 18,000 to SAR 85,000+, depending on:

- Power output (10HP to 300HP models)
- Brand (Chinese-made vs. German/Japanese imports)
- Fuel efficiency standards

Chinese brands like Shanghai Denair offer entry-level units at SAR 18,000-35,000. European models (Atlas Copco, Ingersoll Rand) range SAR 55,000-85,000+ but deliver higher ROI through energy savings. Recent Saudi Vision 2030 infrastructure projects have increased demand, causing a 7% price jump since Q1 2024.

## Case Study: How Jeddah Construction Co. Saved 22%

This contractor needed three 100HP compressors for a NEOM City sub-project. Initial quotes from local dealers exceeded SAR 240,000. By directly negotiating with Chinese manufacturers and using bulk-order discounts, they secured units at SAR 187,500 with free shipping from Shanghai Port.

## Where to Get Competitive Quotations

Follow this buying guide to avoid common pitfalls:

- Compare prices from at least 3 suppliers (local dealers vs. China/Germany exporters)
- Ask for FOB/CIF cost breakdowns
- Verify warranty terms - Saudi's desert climate demands corrosion-resistant models

Top-rated suppliers in Riyadh/Dammam currently offer wholesale deals on 20HP-150HP units with 6-12 month price lock guarantees.

## Pro Tip: Negotiate Hidden Costs

Many buyers focus only on the price per piece but forget:

- Import duties (5% for GCC-compliant equipment)
- After-sales service contracts (avg. SAR 2,500/year)
