

Second Hand Core Drilling Rig Price in China 2025: Quotation, ROI & Wholesale Deals

Second Hand Core Drilling Rig Price in China 2025: Quotation, ROI & Wholesale Deals

Need a budget-friendly core drilling rig for construction projects? China's used equipment market now dominates 38% of global trade in heavy machinery (Global Construction Report 2024). But can you navigate price variations and verify machine quality?

Why Second Hand Core Drilling Rig Prices Vary in China

Buyers from South Africa to Germany save 40-60% buying China's second hand drilling rigs compared to new units. However, 3 factors impact costs:

Operating hours (1,000-5,000 hrs = \$9,800-\$18,500)

Diesel vs electric power systems

Core diameter capacity (4" models start at \$7,200)

Case Study: How Johannesburg Contractors Cut Costs

A South African team bought 3 used core drilling rigs from Shandong suppliers in 2024. Total price: \$28,400 (vs \$67,000 for new equivalents). They achieved full ROI in 8 months through highway bridge projects.

Get the Best Price List & Quotation in 3 Steps

Follow this proven buying guide to avoid overpaying:

Confirm required specs (depth capacity, RPM)

Compare price per piece from 5+ verified suppliers

Request live video inspections

China's Market Trend: 2025 Wholesale Incentives

Under new infrastructure policies, Chinese dealers now offer:

15% VAT rebates for bulk orders

Free container loading services

12-month warranty options

Major ports like Qingdao handle 1,200+ used machinery shipments monthly. A recent Xiamen supplier deal offered core drilling rigs starting at \$6,700/unit for 10+ quantity orders. Always check customs duties in your country - EU buyers typically add 5-8% import fees.

Second Hand Core Drilling Rig Price in China 2025: Quotation, ROI & Wholesale Deals

Shanghai testing centers provide third-party quality certificates (\$120/report). This simplifies financing through platforms like Alibaba Trade Assurance. Last month, 73% of buyers chose door-to-door shipping via China Post Heavy Machinery Express.
