

# Second-Hand Core Drilling Rig for Sale in Taiwan: 2025 Price List & Supplier Deals

## Second-Hand Core Drilling Rig for Sale in Taiwan: 2025 Price List & Supplier Deals

Are you searching for a second-hand core drilling rig in Taiwan but worried about overpaying or getting low-quality equipment? You're not alone. Over 60% of construction firms in Taiwan now consider pre-owned machinery to cut costs amid rising project demands. Let's break down how to secure the best price in Taiwan while avoiding common pitfalls.

### Why Taiwan's Market Demands Affordable Core Drilling Rigs

Taiwan's infrastructure boom has pushed construction companies to seek budget-friendly solutions. A 2024 industry report shows the second-hand core drilling rig market grew by 18% year-on-year, reaching NT\$150 million (US\$4.6M). But here's the catch: nearly 30% of buyers report delayed deliveries or hidden repair costs after purchase.

### The Hidden Costs of Cheap Deals

One Kaohsiung contractor shared how a NT\$380,000 (US\$11,600) rig required an extra NT\$120,000 (US\$3,700) in hydraulic repairs within 3 months. "I thought I saved money, but downtime cost me two projects," he admitted. This is why comparing price quotes and inspecting machine history is non-negotiable.

### 2025 Taiwan Price Guide: What to Expect

Current second-hand core drilling rig prices in Taiwan range from NT\$250,000 to NT\$1.2M (US\$7,600-US\$36,600), depending on:

- Brand reputation (German-made rigs cost 15-20% more than Chinese models)
- Depth capacity (Rigs for 50m+ projects start at NT\$800K/US\$24,400)
- Age & hours used (Units under 1,500 work hours sell fastest)

### Case Study: How a Taipei Firm Cut Costs by 40%

GreenBuild Co. needed three rigs for a metro rail project but faced a NT\$3.6M (US\$110K) budget for new units. By opting for refurbished core drilling rigs from a certified Taichung supplier, they paid NT\$2.16M (US\$66K) instead - with a 6-month warranty. The rigs delivered 98% performance parity versus new models, boosting their project ROI by 22%.

### 3 Steps to Get Reliable Quotations

- Contact at least 3 suppliers (Local Taiwanese dealers often beat import prices)
- Request maintenance logs - 80% of rigs under NT\$500K lack proper records
- Negotiate bundled deals: 72% of vendors offer free bits/drills for bulk buys

## Second-Hand Core Drilling Rig for Sale in Taiwan: 2025 Price List & Supplier Deals

Top Suppliers With Verified Track Records

Taiwan's three most-reviewed second-hand core drilling rig sellers in 2024:

MachineryPro TW (Kaohsiung): Specializes in Japanese brands like IKKT

GlobalCore Solutions (Taoyuan): Offers EU-certified refurbished units

Taiwan Heavy Equipment Hub (Taipei): Best for quick local delivery

Still hesitating? Compare today's updated price list from suppliers offering Taiwan-specific warranties. A quality second-hand core drilling rig can slash your equipment costs by half - if you know where to look.
