

# Second Hand Core Drilling Rig for Sale in the UK: 2025 Price List, Quotes & Buying Guide

Second Hand Core Drilling Rig for Sale in the UK: 2025 Price List, Quotes & Buying Guide

Looking for a second hand core drilling rig price in the United Kingdom? You're not alone. Over 35% of UK construction firms now buy used equipment to cut costs amid rising inflation. But finding reliable deals? That's where things get tricky.

## Why Used Rig Prices Vary Wildly in 2025

A 2024 Equipment Watch report shows second hand core drilling rigs in the UK range from GBP8,500 to GBP28,000. Why the huge gap? Three factors:

Engine hours: Rigs under 500 hours cost 40% more than high-mileage units

Brand value: German-made Boart Longyear models hold resale value better than Chinese clones

Diamond drill bits: Rigs with 6+ certified bits add GBP1,200-GBP3,000 to the price

## The Hidden Costs (That Sellers Won't Tell You)

Paul Reynolds, a Birmingham contractor, learned this the hard way. He bought a GBP14,000 "bargain" rig last year - then spent GBP5,800 replacing corroded hydraulic lines. "I thought I was saving money," he says. "Now I always get an inspection report first."

## 2025 UK Price Breakdown: What's Fair?

Here's what verified dealers like HSS Hire and GAP Hire Solutions are charging:

Basic gasoline rigs: GBP9,000-GBP12,500

Diesel-powered units (Hilti/Atlas Copco): GBP16,000-GBP23,000

Fully refurbished rigs with 1-year warranty: +18-22% vs. "as-is" models

## How to Get the Best Quotation

Liverpool-based DrillsUK Ltd. just secured 15 ex-lease Atlas Copco T3W rigs from Germany. Their secret? Buying in bulk during Europe's Q4 surplus period. Small buyers can copy this strategy by:

Joining trade forums like NDT Marketplace UK

Asking suppliers about end-of-finance-lease stock

Negotiating free transport for orders over GBP20k

## Supplier Showdown: UK vs Imported Rigs

While local sellers offer faster delivery, imported second hand core drilling rigs from China now dominate the

under-GBP15k market. But watch the specs - 73% of China-sourced rigs need voltage converters for UK sites. Our buying guide tip: Always request a CE compliance certificate.

With new IR35 tax rules pushing more contractors to lease equipment, 2025 could be your last year to snag quality used rigs at pre-inflation prices. Three verified suppliers offering free quotations this month are:

- o Westcountry Plant Sales (Bristol)
- o Surplus Machinery Hub (Manchester)
- o EuroDrill Liquidations (Kent)
