

Second Hand Core Drilling Rig in Spain 2024: Price List, Quotation & ROI Buying Guide

Second Hand Core Drilling Rig in Spain 2024: Price List, Quotation & ROI Buying Guide

Are you hunting for second hand core drilling rigs in Spain but stuck comparing prices, quality, and ROI? You're not alone. Over 60% of construction firms in Spain now opt for used equipment to cut costs - but finding reliable deals requires smart strategies.

Price Trends for Second Hand Core Drilling Rigs in Spain (2024 Data)

The average price of second hand core drilling rigs in Spain ranges from EUR5,500 to EUR18,000, depending on drill depth (5-50m) and condition. High-demand models like Atlas Copco Diamec or Husqvarna DM 230 often sell 20% faster than other brands.

Case Study: Barcelona Firm Saves 55% on 2022 Model

A Barcelona-based contractor recently bought a 2022-model Soilmecc SR-40 for EUR14,900 (original price EUR32,000) from a certified German reseller. Their ROI? 8 months vs. 2+ years for new equipment.

3 Critical Steps to Get Accurate Quotations in Spain

- Verify CE certification (mandatory under EU machinery laws)
- Compare hydraulic vs. electric power options (save up to EUR3,000/year in fuel)
- Check Spain's 2023 construction regulations for noise/dust limits

Where to Find Trusted Core Drilling Rig Suppliers

Top options in Spain include:

- Madrid's MachineryHub (300+ verified used units)
- Europe-wide platforms like Euro Auctions
- Direct imports from China (prices 18% lower but 3-week delivery)

Need quick ROI? Focus on rigs under 5 years old. A 2020-model Eijkelkamp rig in Valencia recently sold for EUR9,700 - 47% cheaper than new but with 85% lifespan remaining. Always request engine hour logs and warranty transfers.

Breaking Down Price Per Piece and Hidden Costs

Watch for hidden fees like:

- VAT (21% in Spain for commercial buyers)
- Diamond bit replacements (EUR180-400/set)

Second Hand Core Drilling Rig in Spain 2024: Price List, Quotation & ROI Buying Guide

Transport (EUR450 average within Spain)

Example: A listed EUR11,000 rig in Seville could cost EUR13,500 after taxes and delivery. Compare multiple price lists from suppliers like Hergen Spain or Maxdrill - many now offer free online quotes in under 2 hours.

With Spain's construction output growing 4.6% annually (INE 2024 data), smart used equipment buyers gain competitive edges. Start your search early - quality second hand core drilling rigs often sell within 10 days of listing.
