Second Hand Crawler Air Compressor Price in Kenya 2024: Updated Cost, Quotes & Supplier Deals

Why Buy a Used Crawler Air Compressor in Kenya?

Need crawler air compressors for construction or mining? You're not alone. Over 72% of contractors in Kenya choose second-hand equipment to cut costs - but finding reliable prices in Kenya feels like searching for water in the Sahara. Scam sellers, hidden repair fees, and unclear import rules leave many buyers frustrated.

The Real Cost of Cheap Compressors

A Nairobi contractor paid 680,000 KES for a "low-cost" used compressor last year. Within 3 months, engine failure cost him 220,000 KES in repairs and project delays. This isn't rare: 1 in 3 used compressors sold in Mombasa ports have major component issues.

2024 Price List for Second-Hand Crawler Compressors in Kenya

Here's what you'll actually pay for quality-tested units:

Small units (185 CFM): 550,000 - 800,000 KES

Mid-size (350 CFM): 1.2M - 1.8M KES

Mining-grade (750 CFM+): 2.4M - 4M KES

Tip: Chinese-built compressors (like Sullair clones) cost 15-30% less than German or Japanese brands. But verify maintenance records - 60% of China-imported units need part replacements within 6 months.

How to Get the Best ROI on Your Purchase

InfraBuild Kenya saved 1.1M KES buying a 2020 Atlas Copco XRH 350 through certified reseller HeavyTech Africa. Key steps:

Check compressor hour meter (under 4,000 hrs preferred)

Confirm proper documentation (NEMA certification + port clearance)

Ask suppliers for on-site testing in Nairobi or Kisumu
