

Second Hand Crawler Air Compressor Price in Portugal 2024: Cost, Quotation & Buying Guide

Second Hand Crawler Air Compressor Price in Portugal 2024: Cost, Quotation & Buying Guide

Why Portugal's Buyers Are Switching to Used Crawler Air Compressors

Need reliable compressed air for construction or mining in Portugal? New crawler air compressors can cost EUR25,000-EUR60,000 - a tough pill to swallow for small businesses. But here's the game-changer: second hand models in Portugal now sell at 30-50% lower prices, with verified suppliers offering full technical inspections.

The Real Costs You'll Save

A 2023 market study showed Portuguese contractors saved average EUR18,700 by choosing refurbished crawler-type compressors. Top deals found in Porto and Lisbon include:

Atlas Copco XAS 375 JD: EUR14,500-EUR19,200 (vs EUR34,000 new)

Ingersoll Rand XP825WC: EUR21,000-EUR27,800 (vs EUR48,000 new)

Dealerships like Equipos Mineros Portugal now offer 6-12 month warranties on certified used units - something unheard of 5 years ago.

How to Avoid Costly Mistakes

Joao Silva, a Lisbon-based contractor, almost lost EUR12,000 on a "like-new" 2018 model. The compressor failed during the Algarve highway project. Why? No one checked the:

Engine hour meter (keep it under 4,000 hours)

Air filter condition (ask for maintenance logs)

Smart buyers now use Portugal's price comparison portals like MaqEspecial to get instant quotations from 8+ suppliers.

3 Portugal-Specific Buying Tips

1. Watch for VAT refunds - Some northern regions offer 14% tax breaks for eco-friendly equipment reuse.
2. Verify CE certification - Required for all mobile compressors under Portugal's Decree-Law 82/2021.
3. Calculate ROI properly: A EUR20,000 used unit working 1,200 hrs/year pays back in 18 months vs 42 months for new.

Where to Find Reliable Suppliers

Top 3 Portuguese dealers with verified second hand crawler compressor stock:

1. Compressores Usados Porto (specializes in Kaeser rebuilds)
2. MegaAir Lisboa (exports 40% of stock to Spain and France)
3. EcoEquip Algarve (government-authorized recycling partner)

Second Hand Crawler Air Compressor Price in Portugal 2024: Cost, Quotation & Buying Guide

Pro tip: Always compare price per working hour instead of upfront cost. A EUR17,000 unit needing EUR3,000 repairs often loses to a EUR20,000 "ready-to-work" option.
