

Second Hand Crawler Air Compressor for Sale 2024: Price in South Korea, Quotes & ROI Guide

Second Hand Crawler Air Compressor for Sale 2024: Price in South Korea, Quotes & ROI Guide

Why Buy a Used Crawler Air Compressor in South Korea?

Looking for second hand crawler air compressors but worried about cost and reliability? You're not alone. Over 60% of construction companies in South Korea now consider pre-owned heavy machinery to combat rising equipment prices. In 2023, new crawler compressors saw a 12% price hike due to raw material shortages - pushing buyers toward refurbished options.

The Hidden Costs of Cheap Deals

A Busan contractor recently paid KRW28 million for a "bargain" 2018 model, only to spend KRW7.2 million on hydraulic repairs later. This shows why understanding price per piece matters more than upfront savings. Reputable suppliers like Seoul HeavyMach Co. report 35% lower maintenance costs on certified refurbished units vs. uncertified ones.

2024 Price Trends for Second Hand Units

Here's what price in South Korea looks like today:

2017-2019 models: KRW32-45 million

2020-2022 models: KRW48-65 million

Refurbished units with warranty: +15-20% cost

Prices dropped 6% Q1 2024 due to increased Japanese and Chinese imports. A certified Atlas Copco XAWS 700 (2021) now sells for KRW59 million at Incheon Port - 41% cheaper than new.

Case Study: Smart Buying in Gyeonggi Province

Goyang Construction saved KRW19 million by purchasing a Doosan P185 (2019) through a government-certified reseller program. They secured:

Free 6-month warranty

Discounted spare parts

0% VAT through green equipment incentives

How to Get Accurate Quotations

Top suppliers like Hyundai E&C and KoreaUsedMach now offer real-time quotes based on:

Machine hours (aim below 3,500 hrs/year)

Brand reputation (Kaesung vs. Sullair)

Local service availability

Second Hand Crawler Air Compressor for Sale 2024: Price in South Korea, Quotes & ROI Guide

A Daewoo DWB-150P with 2,800hrs recently sold for KRW37.5 million in Ulsan - 22% below market average through direct negotiation.

ROI Calculation Example

Average payback period for second hand crawler compressors in South Korea:

- o Rental savings: KRW1.8-2.4 million/month
- o Fuel efficiency: 13-18% better than pre-2016 models
- o Resale value: 65-70% retained after 2 years

Where to Find Verified Suppliers

The Korea Used Construction Equipment Association (KUCEA) reports 73 certified sellers nationwide. Key locations:

- o Busan Port Zone: Best for imported units
- o Seoul Digital Marketplace: Instant price comparisons
- o Daegu Industrial Cluster: Factory-direct deals

Last month, a Chinese-made XCMG XA1370 sold for KRW41 million in Busan - complete with EU emission certification and translated manuals. Need multiple quotes? Most suppliers now respond within 2 business days via mobile apps like EquipDeal KOR.
