

Second Hand DTH Drilling Rig Price in Norway 2024: Cost, Quotation & Buying Guide

Second Hand DTH Drilling Rig Price in Norway 2024: Cost, Quotation & Buying Guide

Looking for the best second hand DTH drilling rig price in Norway? You're not alone. Over 60% of mining and construction companies in Scandinavia now opt for refurbished equipment to cut costs without sacrificing performance. Let's break down what you need to know to make a smart purchase.

Why Norway's Market Demands Affordable DTH Rigs

Norway's strict environmental laws (like the Climate Action Plan 2025) push contractors toward sustainable solutions. A second hand DTH drilling rig costs 40-60% less than new models while meeting emission standards. Last year, Sandvik reported a 22% spike in used rig sales to Norwegian buyers - proof that smart savings drive this market.

Current Price Trends: What You'll Pay

The average price in Norway ranges from EUR85,000 to EUR220,000 depending on:

- Hammer horsepower (90-350 HP models)
- Depth capacity (150-500 meters)
- Brand reputation (Atlas Copco vs Chinese suppliers)

For example, a 2020 Atlas Copco FlexiROC T15 recently sold for EUR127,500 in Stavanger - 55% below its original price. Always compare price per drilling meter to gauge true ROI.

How to Avoid Costly Mistakes in 2024

Norwegian contractor Olavsens Drilling lost EUR32,000 on a "bargain" rig that failed bedrock tests. Here's how to avoid their mistake:

- Demand certified maintenance logs (minimum 2,000 operational hours)
- Verify compatibility with Norway's common rock types (gneiss, granite)
- Use escrow payments until onsite testing is done

Top suppliers like Finning Norway now offer 6-month warranties on refurbished models - a game-changer for risk-averse buyers.

Where to Find Reliable Quotations

Local auctions in Oslo and Bergen often list rigs at 30% below dealer prices. However, imported units from Germany can slash costs by another 12-18% after VAT adjustments. One Trondheim buyer saved EUR21,000 by purchasing a 2019 Sandvik DX700 through a Hamburg reseller.
