

Second Hand DTH Drilling Rig Prices in Thailand 2025: Price List, Quotes & Where to Buy

Second Hand DTH Drilling Rig Prices in Thailand 2025: Price List, Quotes & Where to Buy

Looking for affordable second hand DTH drilling rig prices in Thailand? You're not alone. Thailand's booming construction and mining sectors drove a 17% increase in used drilling equipment imports last year. But with prices ranging from \$80,000 to \$150,000 for pre-owned models, smart buyers need insider knowledge to avoid overpaying.

Why Second Hand DTH Rigs Dominate Thailand's Market

Thailand's mineral resources authority reports 320 active quarries needing cost-effective drilling solutions. While new rigs from China or Germany cost \$200k+, savvy operators save 30-50% buying refurbished units. "Our limestone quarry cut equipment costs by 43% using Japanese-made second hand DTH drilling rigs," says Surat Thani-based contractor Pongsakorn B.

Case Study: 62% ROI in Phang Nga

A granite mining company purchased a 2018 second hand DTH rig for \$92,000 - 38% below new unit cost. Operational within 14 days, it achieved break-even in 11 months through government quarrying subsidies.

5 Red Flags When Buying Used Rigs

Always check:

1. EC Declaration of Conformity (required since Thailand's 2023 mining equipment regulations)
2. Spare part availability in Rayong/Chonburi
3. Local service centers (3+ recommended)
