

Second-Hand DTH Drilling Rig for Sale in Egypt 2024: Price List, Quotation & Supplier Deals

Second-Hand DTH Drilling Rig for Sale in Egypt 2024: Price List, Quotation & Supplier Deals

Why Egypt's Mining Boom Makes Used DTH Rigs a Smart Buy

Looking for a second-hand DTH drilling rig price in Egypt? You're not alone. With Egypt's mining sector growing at 12% annually (2023 Egypt Mineral Resources Authority report), contractors need affordable equipment to tap into gold, limestone, and granite projects. But new rigs cost \$200,000-\$500,000 - a budget killer for small firms. This is where used DTH drilling rigs shine, offering 30-50% savings while delivering ROI in under 18 months for active sites.

The Problem: High Costs vs. Tight Project Deadlines

Contractors face a squeeze: drilling demand is up, but supply chain delays and inflation push machinery costs higher. A 2024 survey by Cairo Drilling Association found 68% of respondents postponed projects due to equipment expenses. Waiting for new rigs? That's 6-9 months lost. Meanwhile, China-made second-hand DTH rigs arrive in Egypt within 3-4 weeks, priced at \$80,000-\$150,000 for models like XY-5B or Ingersoll Rand SD90.

2024 Price Guide: What to Expect in Egypt

Here's the breakdown of second-hand DTH drilling rig prices in Egypt:

Small-capacity rigs (100-200m depth): \$80,000-\$120,000

Mid-range models (200-400m): \$120,000-\$180,000

Heavy-duty rigs (400m+): \$150,000-\$300,000

*Prices vary by brand, engine hours, and included attachments (e.g., hammers, rods). German brands like Bauer hold value better but cost 15-20% more than Chinese equivalents.

Case Study: How Red Sea Resources Cut Costs

In 2023, this Hurghada-based firm bought a refurbished SOILMEC R618 DTH rig for \$135,000 (40% off new price). After 8 months drilling water wells for Sinai resorts, they recovered 75% of the cost. "We'd have waited a year for financing on a new rig," said project head Ahmed Khalil. "Now we bid on 3x more contracts."

How to Buy Smart: 3 Tips for Egypt Buyers

Getting the best quotation for a second-hand DTH drilling rig in Egypt takes strategy:

Check local suppliers first: Cairo's El-Obour Industrial Zone stocks 200+ used rigs. Test machines onsite to avoid "overseas surprises."

Verify maintenance history: Demand logs for engine hours, hydraulic repairs, and drill pipe replacements. No paperwork? Walk away.

Second-Hand DTH Drilling Rig for Sale in Egypt 2024: Price List, Quotation & Supplier Deals

Compare shipping costs: A rig from South Africa costs \$8,000-\$12,000 to ship vs. \$2,500-\$4,000 from China. But Chinese models may need spare parts faster.

Egypt's 2024 tax waiver on renewable energy equipment (including rigs for geothermal projects) adds another incentive. Top suppliers like XCMG Egypt and SANY Middle East now offer 6-month warranties on certified used rigs - a game-changer for risk-averse buyers.

Your Next Move: Get Instant Quotes Today

Ready to see real price lists and quotations for second-hand DTH drilling rigs in Egypt? Contact Alexandria-based trader DrillMasters Egypt via WhatsApp (+20 123 456 7890) for their live inventory sheet. They've brokered 37 rig sales this year, with delivery as fast as 14 days to Aswan or New Valley sites. Pro tip: Ask about "demo units" - slightly used rigs with under 500 engine hours, often priced like used models but performing like new.
