

Second Hand DTH Drilling Rig for Sale in Germany 2024: Price List, Quotation & ROI Guide

Second Hand DTH Drilling Rig for Sale in Germany 2024: Price List, Quotation & ROI Guide

Looking for second hand DTH drilling rigs in Germany but confused about costs and reliability? You're not alone. Over 60% of mining/construction companies now opt for pre-owned equipment to cut upfront costs. Let's break down the 2024 market trends and how you can make a smart purchase.

Why Buy a Used DTH Drilling Rig in Germany?

New DTH rigs cost EUR120,000-EUR500,000+, while second-hand models sell for 30-60% less. With Germany's strict equipment recycling policies and high maintenance standards, many used rigs retain 70-85% functionality. For example:

A 2020 Sandvik DX800 recently sold for EUR78,000 (47% off new price)

Atlas Copco Pit Viper 271 units average EUR125,000-EUR180,000 used

The Hidden Problem With Cheap Listings

Bargain prices under EUR50,000 often hide worn drill heads or hydraulic leaks. One Hanover construction firm lost EUR12,000 repairing a "low-cost" 2015 rig last year. Always verify:

Service records (minimum 2/year)

Engine hours (
