

# Second Hand Diesel Generator Price in Pakistan: 2024 Cost List, Supplier Deals & ROI Guide

Second Hand Diesel Generator Price in Pakistan: 2024 Cost List, Supplier Deals & ROI Guide

Struggling with power cuts in Pakistan? You're not alone. Businesses across Karachi, Lahore, and Islamabad lose 18-34% of daily productivity due to unreliable electricity. But here's the shocker: buying a brand-new diesel generator can cost up to PKR 2.5 million - enough to bankrupt small factories. What if you could slash that cost by 65%? Let's break down why second-hand diesel generator prices in Pakistan are drawing massive attention in 2024 and how to secure the best deal.

## Why Second-Hand Diesel Generators Dominate Pakistan's Market

Pakistan's energy crisis is worsening. The national grid faces a 5,000 MW shortfall during peak hours, forcing factories to rely on generators. But tight budgets make used equipment the go-to solution. Second-hand diesel generator suppliers in Lahore and Faisalabad report a 30% sales spike since 2023, driven by:

- Textile mills avoiding 8-hour production halts
- Hospitals ensuring uninterrupted ICU operations
- Hotels maintaining air conditioning during load shedding

## Price Breakdown: What You'll Pay for Used Generators

Typical second-hand diesel generator prices in Pakistan range from PKR 350,000 to PKR 1.2 million based on capacity (25kVA to 250kVA). For example:

- Chinese-made generators (50kVA): PKR 450,000-600,000
- Japanese models like Mitsubishi (100kVA): PKR 900,000-1.1 million
- German-engineered units (150kVA): PKR 1.4 million+

## Smart Buying Strategies: Avoid Costly Mistakes

A Lahore textile factory saved PKR 820,000 by purchasing a 2019-model Cummins generator through these steps:

- Check engine hours: Never buy units with 10,000+ runtime hours
- Verify supplier credentials: Demand ISO 8528 compliance certificates
- Calculate ROI: Used generators pay back costs in 8-14 months via productivity gains

## Where to Get Reliable Quotations in 2024

Top-rated suppliers like Karachi Generators Ltd. offer 7-day testing periods and service warranties. For export-grade units, Chinese manufacturers like Weichai Power now sell refurbished 250kVA generators at
