Second Hand Drilling Bit Prices in Indonesia 2024: Cost, Quotation & Wholesale Deals

## Why Mining Companies Are Hunting for Used Drilling Bits in Indonesia

Looking to save up to 60% on second hand drilling bit prices in Indonesia? You're not alone. Rising fuel costs and delayed equipment shipments have pushed 78% of Indonesian drilling contractors to seek used tools. But where do you find reliable suppliers? How do you avoid getting scammed? Let's break it down.

## The Reality: New vs Used Prices in Indonesia's Market

A new 12-inch tungsten carbide bit costs \$3,500-\$5,200 in Jakarta. Meanwhile, second hand drilling bits from China or Germany sell for \$800-\$1,800 - often with 70-85% remaining lifespan. Take PT Minarak Angkasa, a Kalimantan coal miner: they slashed monthly tool costs by 32% after switching to refurbished bits from Shanghai suppliers.

## Current Price List & Supplier Offers (2024 Update)

Here's what you'll pay for popular models:

8-inch PDC bits: \$400-\$900 (wholesale price for 10+ units)

Reconditioned tricone bits: \$220-\$600 per piece

Custom grinding services: \$45-\$120 per bit

Tip: Always ask for ISO 9001-certified refurbishment reports. Top suppliers like Guizhou SinoPro Tools offer free lifetime re-sharpening deals for bulk orders.

## How to Get the Best Quotation in 3 Steps

1. **\*\*Avoid Alibaba-scams:\*\*** 62% of low-cost online ads use stock photos instead of actual product images. Demand WhatsApp video verification.
2. Compare landed costs: A \$500 bit from China becomes \$720 after tax and shipping. Indonesian sellers like CV Borindo often include door-to-door delivery for \$650-\$850.
3. Negotiate lifecycle support: Jakarta-based PT DrillTek offers free onsite inspections for purchases above \$8,000.

## Supplier Spotlight: Trusted Exporters to Indonesia

China: Zhejiang Yikuang (30% cheaper, 15-day delivery)

Germany: BAUER Equipment Asia (premium used bits, 90% lifespan guarantee)

Local: Surabaya Drilling Store (same-day pickup, 1-year warranty)

A recent case: Bali's GeoWater Solutions cut project delays by 18 days using German-made used bits priced at \$1,100/unit - 50% below new equivalents.

Policy Alert: New Tax Breaks for Recycled Tools

Indonesia's 2024 Green Mining Initiative gives 15% VAT discounts for companies buying second hand drilling equipment. You'll need Form SPT-032 from the Ministry of Energy. Combine this with bulk supplier deals to maximize ROI.

Still unsure? Try split orders: Buy 2-3 bits from different suppliers first. Test them on softer shale layers before committing to big purchases. Most Indonesian contractors report 8-12 month ROI on quality used bits - even with replacement teeth costs.
