

Second Hand Drilling Bits for Sale in Vietnam: 2024 Price List & Supplier Deals

Second Hand Drilling Bits for Sale in Vietnam: 2024 Price List & Supplier Deals

Looking for second hand drilling bit price in Vietnam? You're not alone. Over 60% of construction companies now use refurbished tools to cut costs - but bad deals can waste US\$5,000+ per project. Let's fix that.

Why Vietnam's Market Demands Affordable Options

Vietnam's construction boom grew 9.2% last year (World Bank data). But new drill bits from Germany/China cost US\$800-1,200 each. Many contractors turn to used equipment. Problem? Local suppliers often hide:

Worn diamond coatings (shortens lifespan by 40%)

Rust damage from coastal humidity

No ROI guarantees on cheaper options

Real Buyer Case: How Ha Noi Team Saved 68%

VinaDrill Co. needed 12 bits for limestone work. New set: US\$9,600. They bought second hand drilling bits from a certified Ho Chi Minh City supplier for US\$3,100. After 8 months? Same productivity. Secret? They checked:

Free hardness tests

Minimum 75% diamond retention

Price per piece below US\$300

2024 Price Guide: What to Expect

Here's current second hand drilling bit price in Vietnam ranges for popular models:

3.5-inch tungsten carbide bits: US\$90-180

4.5-inch diamond core bits: US\$250-420

Custom bits (oil/gas use): US\$450-700

Top suppliers like Saigon HardTools offer wholesale discounts - 15% off orders of 20+ units. Always ask for a free quotation with shipping costs included.

Quick Buying Checklist

1. Request video inspections of drill bit teeth
2. Compare with new prices from China's top brands
3. Negotiate bulk deals during Vietnam's June-August low season

Want proof it works? Last month, a Da Nang bridge team bought US\$7,200 worth of used bits. They've drilled
