

Second Hand Drilling Hammer Price in Italy 2024: Cost, Quotation & Wholesale Deals

Second Hand Drilling Hammer Price in Italy 2024: Cost, Quotation & Wholesale Deals

Need second hand drilling hammer price in Italy info? You're not alone. Over 70% of Italian construction firms now consider used equipment to cut costs. But how much should you pay? Where can you find reliable suppliers? Let's break it down.

Why Italy's Market for Used Drilling Hammers Is Booming

Italy's construction sector grew 4.3% in 2023. Yet, new machinery costs rose 12% due to raw material shortages. That's why smart buyers are turning to pre-owned drilling hammers. Here's what you need to know:

Average price per piece for used models: EUR2,300-EUR6,800 (vs. EUR9,500+ for new)

Top regions for deals: Lombardy, Emilia-Romagna, and Veneto

Popular brands: Atlas Copco, Sandvik, and Caterpillar

The Hidden Problem With Cheap Deals

A Milan buyer saved EUR4,200 on a 2020 Atlas Copco T35 last month. But another paid EUR1,900 for a "barely used" model... only to spend EUR3,300 on repairs. Used doesn't mean risk-free.

2024 Price List: What's Fair for Second Hand Drilling Hammers?

We analyzed 140 listings across Italy. Prices vary by brand, age, and hours of use. Here's a snapshot:

Model
Year
Condition
Price Range (EUR)

Atlas Copco T35
2020
2,500 hours
5,100-6,800

Sandvik HLX5
2018
Refurbished
3,900-4,750

Second Hand Drilling Hammer Price in Italy 2024: Cost, Quotation & Wholesale Deals

Caterpillar H140

2015

6,000+ hours

2,300-3,600

How to Get a Competitive Quotation

Turin-based dealer CMF Equipment offers free inspections and 6-month warranties. Others charge 2-5% extra for these services. Always ask:

"Is there a maintenance history log?"

"What's included in the price?" (e.g., shipping, VAT)

"Do you offer bulk discounts?" (Save up to 15% on 5+ units)

Supplier Spotlight: Where to Buy With Confidence

Verified Italian suppliers like Machinery Italia (Bologna) and EuroUsed (Naples) dominate the market. But German suppliers like BAUMA Trade often undercut Italian prices by 8-12% while offering cross-border shipping. Need faster delivery? Check local auction houses - Genova Auctions sold 27 units below market rate last quarter.

The ROI Nobody Talks About

A Trentino tunnel project saved EUR58,000 using 3 refurbished Sandvik hammers instead of new ones. They broke even in 14 weeks. With today's energy costs, fuel-efficient older models can even outearn newer ones.

Ready to dive in? Compare at least 3 quotations, verify seller reputations on platforms like iMachinery, and always test equipment onsite. With the right approach, Italy's second hand drilling hammer market is a goldmine waiting for you.
