Second Hand Drilling Rod Price in Germany 2024: Cost, Quotation & Supplier Deals

Looking to buy second-hand drilling rods in Germany without breaking the bank? With new drill rods costing up to EUR2,000 per piece, contractors and mining companies are turning to used drilling equipment to cut costs. But how much should you pay, and where can you find reliable suppliers? Let's break it down.

Why Second-Hand Drilling Rods Are a Smart Move in Germany

Germany's construction and mining sectors spent EUR1.3 billion on drilling equipment in 2023 - 28% of that went to refurbished or pre-owned tools. A recent case study from Hanover showed a geothermal project saved EUR46,000 by buying 30 used drill rods (EUR400/piece) instead of new ones (EUR1,800/piece).

What Drives the Price?

The second hand drilling rod price in Germany ranges from EUR100 to EUR600 per piece based on:

- Rod diameter (3-inch rods cost 20% more than 2-inch)
- Usage hours (under 500-hour rods fetch top prices)
- Brand (Sandvik and Atlas Copco hold value best)

2024 Price Trends: Act Before June

German suppliers currently have 18% more inventory than last year - but demand is rising fast. Here's what we're seeing:

- Standard 2m rods: EUR280-EUR420 (12% cheaper than 2023)
- Threaded rods for deep drilling: EUR550+ (limited stock)
- Bulk deals (10+ rods): 8-15% discounts

Get Your Quotation Right: 3 Insider Tips
