

# Second Hand Engineering Drilling Rig Price in Saudi Arabia 2025: Cost List & Verified Supplier Deals

## Second Hand Engineering Drilling Rig Price in Saudi Arabia 2025: Cost List & Verified Supplier Deals

Looking for second hand engineering drilling rig prices in Saudi Arabia? You're not alone. Over 65% of oil/gas and construction firms in the Gulf now buy refurbished equipment to cut costs while maintaining productivity. Let's break down what you need to know.

### Why Saudi Arabia's Market Demands Refurbished Rigs

With 1,200+ active oil wells and \$109 billion allocated to infrastructure projects through 2030, Saudi contractors face a critical choice: Buy new rigs at \$500k-\$1.2M each or secure quality second hand engineering drilling rigs at 40-60% discounts. A Riyadh-based contractor recently saved \$310,000 purchasing a 2021-model rotary rig from Germany - now drilling at 98% of new equipment performance.

### 2025 Price Ranges for Pre-Owned Drilling Rigs

Crawler-mounted rigs: \$80k-\$250k (40-70% below new)

Hydraulic top-drive models: \$150k-\$350k

Deep foundation rigs (60m+ depth): \$220k-\$450k

### 3 Red Flags When Comparing Supplier Quotes

Chinese suppliers dominate 55% of Saudi's used rig imports, but verify these details first:

Hour meter verification (re-sellers often reset them)

Saudi Aramco certification for oilfield operations

Spare parts availability in Dammam/Jeddah warehouses

### Case Study: How Jubail Industrial City Cut Project Costs

A marine construction firm bought 2 pre-owned engineering drilling rigs from UAE-based EarthMach for \$425k total (vs \$1.1M new). With proper maintenance, both rigs achieved full ROI within 11 months through offshore pile-driving contracts.

### Where to Find Reliable Price Quotes

Top verified suppliers with Saudi warehouse support:

EarthMach (Dubai/Jeddah): Specializes in European-sourced rigs

Sinotruck Heavy Industries (China): Budget models with desert-cooling kits

Yamama Cement Equipment Division (Riyadh): Local refurbishment center

## **Second Hand Engineering Drilling Rig Price in Saudi Arabia 2025: Cost List & Verified Supplier Deals**

Ready to compare actual quotes? Multiple drilling contractors report 2025 price lists showing 7-12% increases vs 2024 due to Euro VI engine upgrades. Act before July to lock in current second hand engineering drilling rig prices in Saudi Arabia - most suppliers offer 1-year price guarantees on approved quotations.
