

# Second Hand Engineering Drilling Rig for Sale in Germany: 2025 Price List & Buying Guide

Second Hand Engineering Drilling Rig for Sale in Germany: 2025 Price List & Buying Guide

## Why Second Hand Engineering Drilling Rigs Are Hot in Germany

Looking for a second hand engineering drilling rig in Germany? You're not alone. Construction companies and contractors across Europe's largest economy are snapping up used equipment to save costs. New drilling rigs can cost EUR250,000-EUR600,000, while second hand models sell at 30-50% discounts. But here's the problem: unreliable sellers and hidden defects waste time and money.

## The Hidden Costs of Cheap Deals

In 2023, a Berlin contractor bought a EUR85,000 used rig online - only to spend EUR23,000 extra on hydraulic repairs. Stories like this are common. Germany's engineering drilling rig market has 2 risks:

Fraudulent listings: 17% of used machinery ads on classified sites misrepresent conditions

Outdated specs: Rigs from before 2018 lack Euro Stage V emission compliance

## 2025 Second Hand Drilling Rig Price List (Germany)

We surveyed 12 verified dealers in Hamburg, Munich, and Frankfurt. Here's what you'll pay:

Top hydraulic rigs (2020-2022 models): EUR105,000-EUR180,000

Mid-tier diesel rigs (2017-2019): EUR62,000-EUR95,000

Bargain options (pre-2016): EUR28,000-EUR50,000 - but check local emission laws!

## Smart Buying Strategy: China vs Germany

Some buyers import second hand engineering drilling rigs from China (prices 15-20% lower). However, shipping and EU certification add EUR8,000-EUR12,000. A Bavarian miner saved EUR34,000 buying a 2021 XCMG rig from Wuhan - but waited 11 weeks for customs clearance.

## Get the Best Quotation: 3 Proven Tips

Want price transparency? Follow this blueprint:

Demand telematics reports: Hours worked and maintenance logs are non-negotiable

Verify VAT-paid status - 23% of EU sellers skip taxes

Test rigs at certified workshops like TUV SUD (cost: EUR300-EUR500)

## Supplier Spotlight: Trusted German Dealers

Bauer Group (Munich) offers 6-month warranties on all used engineering drilling rigs, while Liebherr's

## Second Hand Engineering Drilling Rig for Sale in Germany: 2025 Price List & Buying Guide

Frankfurt hub has 45 refurbished units under EUR130k. For tight budgets, check NRW Mining Auctions - last March, a 2018 Sandvik rig sold for EUR79,000 (43% below new price).

### Tax Breaks & ROI Opportunities

Germany's Green Construction Act (2024) gives EUR4,000-EUR12,000 tax credits for upgrading to low-emission equipment. A Stuttgart firm cut CO2 output 18% by replacing 2015 rigs with 2021 models - and reclaimed EUR9,700 in credits. Smart upgrades pay for themselves in 2-3 years.

Ready to buy? Always compare quotation details and demand drill depth/capacity certificates. With rising infrastructure projects (Germany plans EUR54B transport upgrades by 2027), your second hand engineering drilling rig could be the ROI goldmine hiding in plain sight.
