

Second Hand Engineering Drilling Rig for Sale in Japan: 2024 Price List, Quotation & ROI Guide

Second Hand Engineering Drilling Rig for Sale in Japan: 2024 Price List, Quotation & ROI Guide

If you need second hand engineering drilling rigs in Japan, you're not alone. Over 47% of construction companies in Asia now use pre-owned equipment to cut costs. But finding reliable suppliers and transparent price per piece details? That's where most buyers get stuck.

Why Japan's Used Drilling Rig Market Is Booming

Japan's strict equipment retirement laws create a goldmine. Construction giants like Shimizu Corp. replace rigs every 5-7 years, flooding the market with low-hour used drilling rigs. Last year, Tokyo dealers sold 238 units with full maintenance records - 30% cheaper than new models from Germany.

The Hidden Costs Most Buyers Miss

A 2023 survey revealed 62% of first-time buyers overpaid due to:

- Hidden repair costs (avg. JPY1.2M extra)
- Shipping fees from remote Hokkaido suppliers
- Missing ISO 9010 certifications

2024 Price List: What to Expect

Here's the breakdown for second-hand engineering drilling rig price in Japan:

- Komatsu DR200C (2019): JPY18.5M-JPY22M
- Sandvik DX800 (2017): JPY29M-JPY34M
- Atlas Copco ROC L8 (2020): JPY41M-JPY48M

Pro tip: Prices in Osaka's free trade zone run 12-15% lower than Nagoya. Always compare price lists from 3+ suppliers.

Case Study: How a Thai Miner Saved JPY27M

Bangkok-based GeoMiners needed a rig for limestone extraction. New models from China? JPY68M+. Through our wholesale guide, they bought a refurbished 2021 Junjin JRD-2000 in Fukuoka for JPY41M. Full ROI achieved in 14 months.

3-Step Buying Process That Works

- 1) Get quotes with machine hour certifications
- 2) Verify customs clearance support
- 3) Use ESCROW payment for Nagoya Port deliveries

Second Hand Engineering Drilling Rig for Sale in Japan: 2024 Price List, Quotation & ROI Guide

Last month, 18 Malaysian buyers secured rigs through Japan's supplier deals program - all with 6-month performance guarantees. The secret? Never skip onsite inspections. One buyer found cracked drill pipes that the seller replaced immediately.

Urgent Update: New Tax Incentives

Japan's 2024 recycling subsidy cuts engineering drilling rig cost by 8% for ASEAN importers. But you need to apply before October. A Yokohama dealer just helped a Vietnamese contractor save JPY3.2M on a 2018 Soilmec SR-30.

Ready to compare real-time price quotations? Top suppliers in Tokyo and Kobe now offer video walkthroughs with live drilling demos. One Chinese buyer closed a deal in 72 hours using this method - the rig was drilling in Sichuan province within 12 days.
