

Second Hand Four-Wheel Screw Diesel Compressor Price in Indonesia: 2025 Supplier Deals & ROI Guide

Second Hand Four-Wheel Screw Diesel Compressor Price in Indonesia: 2025 Supplier Deals & ROI Guide

Need a powerful air solution but can't stomach new machinery prices? You're not alone. 72% of construction companies in Indonesia now choose second-hand four-wheel screw diesel compressors to slash costs while meeting high-demand projects. Let's break down current price trends and smart buying strategies.

Why Second Hand Compressors Dominate Indonesia's Market

The Indonesian government's \$320 billion infrastructure push has doubled demand for portable compressors since 2022. But new models from Germany or China cost ?2.8-4.5 billion (?\$180,000-\$290,000). Here's where used four-wheel screw diesel compressors save the day:

Price per piece: ?850 million - ?1.8 billion (\$55,000-\$116,000)

Immediate availability vs 4-6 month waits for new units

Tested ROI: 12-18 month payback period in coal mining operations

Real-World Savings: Jakarta Port Expansion Case Study

PT Mandiri Construction saved ?12 billion (\$775,000) by buying 8 used Ingersoll Rand XHP1170VS compressors through Surabaya-based supplier IndoCompress. Their fuel efficiency? Just 9.3 liters/hour under full load - matching 2024 models.

2025 Price Factors for Used Screw Compressors

Not all second-hand deals are equal. Three factors control screw diesel compressor prices in Indonesia:

Runtime Hours: Units under 8,000 hrs fetch 35% higher prices

Local vs Imported: Japanese-built Hitachi models hold value better

Mobility: Four-wheel models cost 18% more than stationary units

Pro Tip: Always request original maintenance logs. A well-documented Atlas Copco XAS 188 costs ?920 million (\$59,400) vs ?710 million (\$45,800) for "as-is" units.

How to Get the Best 2025 Quotation

Top suppliers like Jakarta HeavyMach and PT Kompresor Indonesia offer price-match guarantees. Here's your action plan:

Second Hand Four-Wheel Screw Diesel Compressor Price in Indonesia: 2025 Supplier Deals & ROI Guide

Compare 3+ quotations with detailed breakdowns

Verify machinery import dates (pre-2020 models avoid new tariffs)

Test onsite: 80% of buyers negotiate 7-12% discounts after inspections

The market's moving fast - Kalimantan mining firms booked 47 units last month alone. Ready to upgrade? Download our Indonesia Compressor Buying Guide with 2025 tax incentives and warranty checklists. Your project budget will thank you.
