

# Second Hand Four-Wheel Screw Diesel Compressor Price in Portugal (2024): Deals, Quotes & ROI Guide

## Second Hand Four-Wheel Screw Diesel Compressor Price in Portugal (2024): Deals, Quotes & ROI Guide

Looking for second-hand four-wheel screw diesel compressors in Portugal? You're not alone. Construction companies and contractors across Lisbon, Porto, and Faro are snapping up refurbished models to cut costs while maintaining worksite productivity. Prices here range from EUR10,000 to EUR35,000 - but how do you find the best machine for your budget?

### Why Portugal's Market Booms for Used Diesel Compressors

Portugal's construction sector grew 6.3% in 2023 (INE Portugal data), driving demand for mobile compressors. Screw diesel compressors with wheels dominate 58% of this market due to their portability in hilly terrain. But brand-new units often exceed EUR50,000, pushing buyers toward reliable pre-owned alternatives.

### Case Study: Porto Contractor Saves 40%

Mota Engil Algarve, a civil engineering firm, purchased a 2021 Atlas Copco XAS 4000 (4WD) for EUR28,500 last month. Their project manager stated: "This saved us EUR19,000 vs. new. After 8,000 hours, it runs like new - perfect for roadworks."

### 2024 Price List for Key Models

Atlas Copco XAS 3500 (2018): EUR10,000-EUR14,500

Ingersoll Rand P185 (2020): EUR19,900-EUR24,000

Sullair 1850DH (2022): EUR31,500-EUR35,000

Prices vary based on hours of use, maintenance history, and included attachments (e.g., air dryers). Suppliers in Germany often undercut local quotes by 8-12%, but check import taxes (avg. 5.8% in Portugal).

### How to Buy Smart: 3-Step Checklist

1. Compare quotes from Europe's top platforms: Euro Auctions (Spain) and TruckScout24 (Germany)
2. Demand digital maintenance logs and OEM parts verification
3. Ask about warranty options (many offer 6-12 months)

### Government Incentives You Can't Ignore

Under Portugal's 2024 Circular Economy Plan, buyers of refurbished diesel compressors get up to EUR2,000 tax rebates. Companies in rural areas also qualify for 10% VAT discounts. But act fast - this ends in December 2024!

## Second Hand Four-Wheel Screw Diesel Compressor Price in Portugal (2024): Deals, Quotes & ROI Guide

### The Hidden ROI Factor: Fuel Efficiency

Newer models like the Kaeser M59 (2022) burn 18% less fuel than 2017 versions. Even at Portugal's diesel price (EUR1.82/L), this saves EUR1,100+ annually. Always check the engine's Tier emission rating during negotiations.

Last week, a Coimbra-based buyer secured a 2020 Doosan P150 (four-wheel) for EUR22,300 via a closed auction. "We got 3 quotes, tested onsite, and closed within 4 days," they shared. With smart prep, your ideal screw diesel compressor deal is just clicks away. Check inventory updates daily - premium stock sells fast!
