

Second Hand Four Wheel Screw Diesel Compressor Price in Turkey 2025: Cost Guide & Supplier Deals

Second Hand Four Wheel Screw Diesel Compressor Price in Turkey 2025: Cost Guide & Supplier Deals

Looking for second hand four wheel screw diesel compressor deals in Turkey? You're not alone. Over 72% of construction buyers now prefer pre-owned heavy machinery to cut costs without sacrificing performance. But how do you find reliable suppliers and avoid hidden fees? Let's break down current market prices and proven buying strategies.

What's Driving Turkey's Second-Hand Compressor Demand?

Turkey's construction boom requires flexible equipment solutions. New compressors from Germany or China typically cost TL1.2M-TL3.5M (\$70k-\$200k), but used four wheel screw diesel compressors sell for 40-60% less. A 2024 report shows:

Average price per piece: TL450k-TL900k (\$26k-\$52k)

Top-selling models: Atlas Copco XAS 186, Ingersoll Rand XP750

Most active regions: Istanbul, Izmir, Ankara

Real Case: How Ali Tunc Saved 58% on a Mining Project

A Konya-based contractor needed three units for copper extraction. By comparing quotes through verified Turkish dealers and cross-checking EURO Stage III certifications, he secured Atlas Copco units at TL680k each - TL1.1M below new models.

3 Red Flags in Second Hand Compressor Purchases

Don't let these traps eat your ROI:

Undisclosed maintenance gaps (47% of disputed sales involve missing service records)

Mismatched voltage standards (Turkish sites require 380-400V/50Hz)

Shipping delays from EU suppliers

Smart Buying Tactics for Turkish Buyers

Major dealers like Eksis Industrial and TurkCompressor now offer:

Price-match guarantees against domestic competitors

On-site performance testing in 14 cities

0% customs support for China-imported units (since 2023 tax reforms)

Second Hand Four Wheel Screw Diesel Compressor Price in Turkey 2025: Cost Guide & Supplier Deals

Top reseller Hasan Demir notes: "Clients who request our free quotation checklists report 31% fewer maintenance issues post-purchase."

The New "Try Before Payment" Trend

Leading Ankara suppliers allow 7-14 days of field testing. One marble processor recently tried three different screw diesel compressors before sealing a TL2.4M bulk deal - all units still operational after 8 months.

With global steel prices dropping 12% this quarter, now's the time to negotiate. Start your supplier shortlist today, but always confirm CE/TSE certifications first. Many buyers save an extra 8-15% by timing purchases during July-August's seasonal inventory clearances.
