

Second Hand Four Wheel Screw Diesel Compressor for Sale in France: 2025 Price List & Supplier Deals

Second Hand Four Wheel Screw Diesel Compressor for Sale in France: 2025 Price List & Supplier Deals

Looking for a second-hand four wheel screw diesel compressor in France? You're not alone. Construction companies, mining operators, and contractors across Europe are scrambling to find affordable, heavy-duty equipment. But here's the catch: buying used machinery is risky if you don't know the price ranges, trusted suppliers, or what to check before paying. Let's cut through the confusion.

Why 70% of French Buyers Opt for Second-Hand Compressors

The French construction equipment market grew by 8.3% in 2024 (Statista), with used machinery sales dominating 64% of transactions. Why? New screw diesel compressors cost EUR18,000-EUR40,000 in France. Meanwhile, refurbished models with warranties sell for 30-50% less. But prices swing wildly based on:

Engine hours (1,000h vs. 5,000h models)

Brand reputation (Atlas Copco vs. budget Chinese imports)

Mobility features (four-wheel systems cost 15% more than fixed units)

Real-World Cost Case: Marseille Contractor Saves EUR12,000

TPM Construction Marseille needed a portable compressor for road projects. A new 2024 diesel screw compressor with wheels was quoted at EUR28,500. Instead, they bought a 2021 Atlas Copco XAS 186 with 2,300 engine hours for EUR16,900 from Lyon-based dealer EquipMat. Result? Same workload capacity, 41% cost saving.

2025 Price Guide: What to Pay for Used Units

Here's what our market survey across Paris, Bordeaux, and Lille shows for second-hand four wheel compressors:

Small units (10-15 CFM): EUR7,200-EUR11,000

Mid-range (18-25 CFM): EUR12,500-EUR18,800

Industrial (30+ CFM): EUR19,000-EUR31,000

Pro tip: German refurbished models cost 8-12% more but include 6-month warranties. Chinese brands like Sullair offer lower prices per piece (EUR6,500-EUR9,800) but higher maintenance costs.

3 Steps to Avoid Scams When Buying Used

France's used equipment market has a 17% fraud rate (DGCCRF 2024 report). Protect your investment:

Verify the VIN number with suppliers registered on CETAR (French Construction Equipment Trade Association)

Second Hand Four Wheel Screw Diesel Compressor for Sale in France: 2025 Price List & Supplier Deals

Demand oil analysis reports - diesel engines with metal particles = trouble

Test the four-wheel mobility - uneven tire wear could mean prior overloading

How Government Incentives Boost Your ROI

France's 2025 "Green Industry Tax Credit" offers 15% rebates for buying eco-upgraded used machinery. Example: A EUR20,000 compressor with rebuilt emissions systems qualifies for EUR3,000 savings. Ask suppliers for certification paperwork.

Ready to negotiate? Marseille Equipment Depot just listed 7 verified second-hand screw diesel compressors with wheels. Request a quotation before June 2025 - bulk buyers get free transport across Normandy and Provence. You want value? Buy smart.
