

# Second Hand Four Wheel Screw Diesel Compressor for Sale: Saudi Arabia Price List 2025 & Supplier Deals

Second Hand Four Wheel Screw Diesel Compressor for Sale: Saudi Arabia Price List 2025 & Supplier Deals

Looking for a second hand four wheel screw diesel compressor in Saudi Arabia? You're joining 68% of contractors who prefer used equipment to cut project costs. But here's the twist: Prices swing wildly between SAR 35,000 and SAR 120,000 - and not all sellers offer the same value.

## Why Saudi Contractors Struggle With Compressor Prices

The Saudi construction boom under Vision 2030 has pushed demand for mobile air compressors up 22% since 2022. Yet second hand screw diesel compressor prices vary like desert temperatures:

Chinese models (Shanghai Super Machine) start at SAR 38,000

European brands (Atlas Copco, Ingersoll Rand) average SAR 85,000

Local rebuilt units sell 35% cheaper but risk breakdowns

A Jeddah contractor lost SAR 28,000 last month buying a 2017 model with hidden engine damage. That's 3 weeks of downtime and repair bills.

## 2025 Price Trend: Used Compressors Get Smarter, Not Cheaper

Used equipment prices rose 8% in Q1 2024 across Riyadh and Dammam. Why? New EU emission rules make older diesel models harder to import. But here's the golden path:

## 3 Steps to Buy Right + Get Best ROI

Check hour meters: 3,000-5,000 operating hours = optimal

Compare supplier warranties: Top dealers offer 6-12 months

Ask for oil analysis reports: Avoid compressors with metal particles

Al Yamama Equipment Trading recently sold a 2021 Atlas Copco XAS 400 for SAR 78,500 - 42% below new unit cost. The buyer saved enough to fund 2 additional site crews.

## Where to Find Reliable Deals

Chinese suppliers like Shanghai Heavy Machinery export to Saudi through Jebel Ali port, cutting delivery fees by 15%. For European models, Dubai-based traders often undercut German quotes by 10-18%. Always ask for:

Original service logs

Customs clearance papers

Spare parts availability (filters, belts)
