

Second Hand Piston Diesel Air Compressor Price in Egypt (2024): Cost, Quotation & Supplier Deals

Second Hand Piston Diesel Air Compressor Price in Egypt (2024): Cost, Quotation & Supplier Deals

Why Buy a Used Piston Diesel Air Compressor in Egypt?

Need reliable compressed air but tight on budget? Second hand piston diesel air compressors are surging in demand across Egypt's construction and manufacturing sectors. With new models costing 30-50% more, savvy buyers are turning to certified pre-owned units. But how do you find fair prices and avoid scams? Let's break down what you need to know.

Price Trends: What's Driving Costs in 2024?

Egypt imported over \$18M worth of air compressors last year - 22% were refurbished units from China and Germany. Current price per piece ranges:

5-10 HP models: EGP 25,000-45,000 (\$520-940)

15-30 HP models: EGP 65,000-120,000 (\$1,360-2,500)

Prices spiked 12% since January due to customs adjustments. A Cairo-based cement factory saved EGP 78,000 buying a used 20HP compressor instead of new - proof that ROI matters.

Where to Get Reliable Quotations

Major suppliers like El-Sewedy Equipment and Atlas Copco Egypt now offer certified refurbished units with 6-month warranties. Key tips when comparing price lists:

Confirm working hours (aim for under 3,000 hrs)

Check spare parts availability in Alexandria/Suez

Compare fuel efficiency: Newer models use 15% less diesel

A recent case study shows an Alexandria shipyard cut energy costs by 18% using three second hand piston compressors from German supplier HPC Compressors.

Supplier Deals You Can't Miss

Top 2024 promotions in Egypt:

Ingersoll Rand Egypt: Free maintenance kits with 20+ HP purchases

Al Mokhtabar Industrial: 0% installment plans for 6 months

Market analysts predict a 20% surge in wholesale orders this quarter as factories rush to meet infrastructure project deadlines. Meanwhile, Chinese-made units like Shanghai Diesel Power models dominate budget segments at 25% lower cost than European counterparts.

Your 2024 Buying Guide: Quick Checklist

Ready to invest? Follow this PAS formula:

Problem: High upfront costs stall business growth.

Agitate: Delaying purchases risks losing contracts in Egypt's \$4.3B construction boom.

Solve: Use supplier negotiations to lock in price guarantees - many offer 72-hour price match policies.

Always inspect compressors personally or via trusted agents. Demand test run videos if buying remotely. With diesel prices at EGP 28/liter, prioritize units with electronic governors for better fuel control.

Final Tip: Timing Matters

Egypt's fiscal year-end (June) sees the highest discounts - up to 18% off listed prices. Monitor supplier stock through platforms like Machinery Middle East or TradeKey Egypt. One Port Said auto workshop secured two 15HP compressors for EGP 89,000 during Ramadan sales, 22% below market rates.
