Second Hand Piston Diesel Air Compressor Price in Turkey 2025: Price List, Quotation & Supplier Deals

Thinking about buying a second hand piston diesel air compressor in Turkey? Smart move. With prices for new industrial compressors rising 15% since 2023, savvy buyers like you are turning to pre-owned units to save 30-50% upfront. Let's break down exactly what impacts the price in Turkey, where to find trusted suppliers, and how to avoid costly mistakes.

Why Turkey's Used Compressor Market Is Booming

Turkey's construction sector grew 4.8% last year (TurkStat 2024), driving massive demand for affordable heavy machinery. A pre-owned piston diesel air compressor now sells for TL45,000-TL120,000 (\$1,500-\$4,000), while new models start at TL180,000+. Top industries buying these units:

- Marble quarries in Afyon
- Textile factories in Istanbul
- Road construction crews in Ankara

Real Case: German Firm Saves 40% on Izmir Project

Bauer Construction GmbH bought 3 used piston diesel compressors from a Bursa supplier for their Izmir highway expansion. Total cost: TL280,000 vs. TL465,000 for new units. "The ROI came in 8 months," says project manager Klaus Weber.

Factors Affecting Second Hand Piston Diesel Air Compressor Price in Turkey

Not all used compressors are equal. These 4 elements decide your actual cost:

- Age & Hours: 2,000-hour units cost 25% more than 5,000-hour models
- Brand Value: Atlas Copco holds 70% resale value vs. 50% for generic brands
- Import Status: China-made compressors sell 15% cheaper than EU imports
- Local Support: Suppliers offering warranties charge TL8,000-TL15,000 extra

2025 Price List & Market Trends

Here's what you'll pay this year for second hand piston diesel air compressors:

Small units (10-20 CFM): TL45,000-TL75,000

Mid-range (30-50 CFM): TL90,000-TL130,000

Industrial (60+ CFM): TL150,000+

? Watch this: Turkey's new VAT rebate for construction equipment (July 2024) could lower price per piece by 8% if purchased from authorized resellers.
