

Second Hand Piston Diesel Air Compressor for Sale in Chile 2024: Price List, ROI & Buying Guide

Second Hand Piston Diesel Air Compressor for Sale in Chile 2024: Price List, ROI & Buying Guide

Why Chile's Mining Sector Needs Affordable Compressors

Chile's mining and construction industries require reliable piston diesel air compressors, but new models often cost 30-50% more than refurbished units. With copper production hitting 5.3 million metric tons in 2023 (Cochilco), contractors are turning to second hand piston diesel air compressors to cut costs without sacrificing performance.

The Price Shock - New vs. Used

A brand-new 500 CFM diesel compressor in Chile costs around \$18,000-\$25,000. But a certified second-hand unit with similar specs sells for \$8,500-\$12,000. That's 55% savings - enough to fund 3 months of fuel!

2024 Price Trends for Second Hand Compressors

Here's what Chilean buyers pay in Q2 2024:

- 150-200 CFM: \$4,200-\$6,800
- 300-400 CFM: \$7,500-\$9,900
- 500+ CFM: \$10,500-\$15,000+

Tip: Prices drop 8-12% for units imported from China or Germany due to bulk auctions.

Case Study - Antofagasta Contractor Cuts Costs

A drilling company saved \$31,000 by buying 3 used 400 CFM Atlas Copco units from a Santiago supplier. They recovered their investment in 14 months through reduced downtime and fuel efficiency.

How to Buy Smart: 4-Step Checklist

- Verify engine hours (under 4,000 ideal)
- Check warranty (6-12 months preferred)
- Compare price per CFM across suppliers
- Request onsite testing before payment

Where to Find Reliable Suppliers

Top-rated providers in Chile include:

Mecanica Pesada Chile - Offers 24-month service plans on certified used compressors.

Euro Machinery S.A. - Specializes in German-made refurbished units with 85% lower emissions.

Pro Tip: Always ask for a custom quotation - bulk buyers often get 5-15% discounts on 2+ units.

Second Hand Piston Diesel Air Compressor for Sale in Chile 2024: Price List, ROI & Buying Guide

The ROI Advantage

A used 250 CFM compressor operating 8 hours/day saves \$1,800/month in Santiago vs. leasing. At this rate, it pays for itself in 6-9 months - perfect for short-term projects.
