

Second Hand Piston Diesel Air Compressor for Sale in Pakistan 2025: Price List, Quotation & Buying Guide

Second Hand Piston Diesel Air Compressor for Sale in Pakistan 2025: Price List, Quotation & Buying Guide

Looking for a second hand piston diesel air compressor in Pakistan but confused about price and reliability? You're not alone. Over 65% of industrial buyers in Karachi and Lahore prefer refurbished compressors to cut cost while maintaining productivity. Let's break down what you need to know about piston diesel air compressor deals right now.

Why Second-Hand Compressors Dominate Pakistan's Market

New diesel air compressors from China or Germany often cost PKR 800,000+ - a tough pill to swallow for SMEs. But a quality second hand piston diesel air compressor sells for PKR 250,000-500,000 in Pakistan, offering 40-60% savings. Faisalabad's textile factories recently saved PKR 12 million collectively by switching to certified pre-owned units.

Current Price Ranges (June 2024)

Small units (10-20 CFM): PKR 180,000-300,000

Mid-range (30-50 CFM): PKR 320,000-450,000

Industrial models (60+ CFM): PKR 500,000-850,000

Pro Tip: Always ask for an itemized quotation including shipping from port cities like Karachi.

3 Critical Checks Before Buying

Last month, a Lahore auto workshop lost PKR 175,000 on a compressor that failed its first pressure test. Avoid this nightmare:

Verify engine hours (under 5,000 preferred)

Demand ASME certification documents

Test air delivery (CFM) with a gauge

Reputable suppliers like Karachi Industrial Machinery offer free onsite verification - use this service!

Supplier Showdown: Local vs Import Deals

Local dealers often charge 15-20% more than China-based suppliers but provide faster service. Here's the ROI breakdown:

Case Study: Sialkot sports factory saved PKR 92,000 importing a 40 CFM unit from Shanghai, even after paying PKR 35,000 in customs. Total cost: PKR 287,000 vs PKR 379,000 locally.

Market Trend Alert

Second Hand Piston Diesel Air Compressor for Sale in Pakistan 2025: Price List, Quotation & Buying Guide

Pakistan's compressor imports surged 28% in Q1 2024, driven by construction boom near CPEC zones. While Chinese models dominate, German-manufactured Deutz units hold resale value best - expect 25-30% higher price per piece for these.
