

# Second Hand Piston Electric Air Compressor Prices in Kazakhstan: 2024 Cost Guide & Wholesale Offers

Second Hand Piston Electric Air Compressor Prices in Kazakhstan: 2024 Cost Guide & Wholesale Offers

## Why Businesses Choose Used Air Compressors

Need reliable compressed air but stuck with tight budgets? You're not alone. Over 65% of Kazakh manufacturing SMEs now buy second hand piston electric air compressors to cut costs while maintaining productivity. Let's break down why this trend exploded after 2022:

## The New vs. Used Price Shock

A brand-new 7.5kW piston compressor from Germany costs KZT2.8M-KZT3.5M (\$6,200-\$7,800). But second-hand models from China or Russia sell for KZT950K-KZT1.3M (\$2,100-\$2,900) in Almaty warehouses. That's 60-68% savings - enough to cover 6 months' electricity bills!

## 2024 Kazakhstan Price List (Certified Units)

3kW portable units: KZT420K-KZT550K (\$930-\$1,220)

11kW industrial compressors: KZT1.1M-KZT1.7M (\$2,450-\$3,780)

Custom quotes for 15kW+ systems: 12-18% discount vs. new

## How to Avoid "Too Good to Be True" Deals

Last month, a Shymkent construction firm lost KZT280K (\$620) on a compressor that died within 3 weeks. Here's how smart buyers protect themselves:

Demand operational hour meters (aim for
