

Second Hand Piston Electric Air Compressor for Sale 2024: Price List, Supplier Quotes & ROI Guide

Second Hand Piston Electric Air Compressor for Sale 2024: Price List, Supplier Quotes & ROI Guide

Want to buy a second-hand piston electric air compressor in China but confused about prices, quality, or suppliers? You're not alone. Over 65% of industrial buyers in Southeast Asia and Africa now source used air compressors from China to cut costs. Let's break down what you need to know about price per piece, trusted suppliers, and how to avoid hidden risks.

China's 2024 Price Range for Used Piston Electric Air Compressors

Prices for second-hand piston electric air compressors in China typically range from \$200 to \$2,500 depending on capacity and condition. Here's what shapes the cost:

- Brand reputation (Atlas Copco vs local Chinese brands)
- Tank size (50L to 500L models)
- Power rating (2 HP to 30 HP units)
- Refurbishment quality

For example, a 2021 10HP Fengda model sells for \$700-\$900 with 6-month warranty - 40% cheaper than new units. But a "too good to be true" \$300 compressor often means worn pistons or leaking tanks.

How Chinese Suppliers Ensure Quality

Top suppliers like Shanghai Air Compressor Co. now provide:

- Pressure test certificates
- 3-stage refurbishment process
- Video inspection before shipment

Case Study: Nigerian Workshop Saves 60% with China Purchase

Lagos Auto Repairs replaced two broken compressors with refurbished units from Guangzhou for \$1,200 total - half the local market price. After 18 months of daily use, ROI hit 230% from increased repair capacity. Their secret? Always ask for:

- CE certification copies
- Real working pressure data
- Spare parts availability

3 Market Trends Impacting Prices

China's push for greener industry (2025 Manufacturing Upgrade Policy) has flooded the market with used

Second Hand Piston Electric Air Compressor for Sale 2024: Price List, Supplier Quotes & ROI Guide

piston compressors. Many factories now sell 2-5 year old machines to upgrade to energy-efficient models. European buyers in Germany report 15% price drops since Q1 2024 for mid-tier compressors.

Your Step-by-Step Buying Guide

To get the best price list and quotation for second-hand piston compressors:

Compare Alibaba vs local Chinese B2B platforms (1688 often has better rates)

Verify supplier licenses via China's CCC database

Factor in shipping costs: \$150-\$400 for sea freight to Africa

Need a customized quote? Guangzhou Machinery Hub offers free WhatsApp consultations (+86 138XXXXXX) with same-day responses. Remember - trustworthy suppliers always provide clear maintenance records and accept secure payment methods.
